

Helicopter drilling rig

What is a heli-portable drill rig?

Designed to complete the most remote of drilling programs, our heli-portable drill division is perfect for your next exploration or geotechnical program. Our heli-portable drill rigs have been designed to service many industry sectors including; construction, mining, oilfield, dams, and pipeline investigation.

Does Geotech have a heli-portable drill rig?

Geotech operates a fleet of heli-portable and skid mount drill rigs. Designed to complete the most remote of drilling programs,our heli-portable drill division is perfect for your next exploration or geotechnical program.

What is a helicopter transportable drilling rig?

For ultimate mobility for installation and operation in limited access regions, Loadmaster companies have designed and manufactured helicopter transportable drilling rigs. These rigs deliver full capacity and performance of the conventional versions, but are modularized and packaged to meet helicopter lift weight requirements.

What is a helicopter rig?

This is the kiddy for when you're fishing in silty areas... The Helicopter Rig,or as it's also commonly known,The Rotary Rig,is very effectIVE in silty conditions. The lead will penetrate into the lakebed leaving your hooklink to move up the leader and stay clear of the silt,giving you a perfect presentation.

What is a sonic drill rig?

Two hydraulic power packs are utilized to operate the machine when sonic drilling. The rig is a fully functioning sonic drill,capable of 4x6 sonic drilling and BQ,NQ and HQ diamond drilling. The drill has a 140lb SPT auto hammer,drill guarding and quick change drill head for sonic or diamond core drill drilling.

Rig Capabilities: Drill Depths:

What is a helicopter lift rig?

These rigs deliver full capacity and performance of the conventional versions, but are modularized and packaged to meet helicopter lift weight requirements. The installation configuration, is optimized for fewest components and handling and assembly with minimal equipment on site. Load tested lifting padeyes and slings slings are included.

MPP's helicopter portable diamond drill, the Discovery I was developed for drilling programs in remote areas. The Discovery I features a 99 HP Kubota diesel ...

Browse 110+ helicopter oil rig stock videos and clips available to use in your projects, or search for offshore oil rig or helicopters to find more stock footage and b-roll video clips.

Helicopter drilling rig

LF(TM)70 Surface Coring Drill Rig Mobility The LF(TM)70 modular design consists of seven sections that are heliportable for reaching remote locations. This drill reduces downtime when ...

Still the quintessential Helicopter Fly-In Rig, the BUSHMASTER is a modular, all hydraulic core drill rig designed for quick breakdown and setup in the most ...

Discover what helicopters are used for offshore operations, their various capabilities, and how these versatile aircraft can meet your project ...

Helicopter portable, track-mounted, man-portable, skid-mounted, underground, deep hole, and low environmental impact rigs for the mineral exploration and ...

Flights to and from the offshore platforms and drilling rigs is by helicopter with flights lasting anywhere between 10 minutes and 2 hours 30 minutes ...

For the last 2 weeks I have been working in a remote mineral exploration camp in Northern Quebec, Canada, flying the helicopter that assists the team in logi...

In the high-risk, remote environments of offshore oil and gas platforms, helicopters play a crucial role in transporting workers and essential ...

The Discovery II is rated to efficiently drill to 1400 meters N/WL while meeting the latest safety requirements from major mining companies, all in a package that can be flown with a B3 size ...

Helicopters are crucial to the offshore energy industry, serving as a key means of transportation for crews working on offshore oil rigs and wind farms.

A heliportable drill rig, also known as a helicopter-portable drill rig, is a type of drilling equipment designed to be transported and deployed to ...

A Hilcorp drilling rig operates on the shore of Cook Inlet, not far outside Anchorage. The company will use a different rig for its exploratory ...

In this video you'll see how a drill is moved from one spot to another in the pursuit of seeking out precious metals Northern Canada. This is real life, and unfiltered, trying to keep as ...

Welcome to the ALTArig, an advanced oil drilling rig/basecamp! The ALTArig allows for continuous oil drilling, pumping, distillation and storage of crude or ...

EDM 30K-HP Heli Portable Diamond Drill Up to 30klbf Holdback The EDM 30K-HP is a high-capacity diamond core rig designed for operation in remote ...

Helicopter drilling rig

DA Smith's heliportable Longyear HC-150 diamond core drill is designed with modular components that can be disassembled into lightweight components (<1,500 pounds) for ...

We are a prominent name, which is engaged in Supplier, Trading Company of Helicopter Drilling Rig in Mumbai, Maharashtra, India. The drilling rig with a drilling depth of below 16500 ft can ...

MPP's helicopter portable diamond drill, the Discovery I was developed for drilling programs in remote areas. The Discovery I features a 99 HP Kubota diesel engine, MPP LW rotation unit ...

Helicopter Drilling DA Smith is experienced with helicopter-access core and rotary drilling in remote locations for mining and civil projects. DA Smith possesses ...

ConeTec has developed custom equipment for heli-portable or remote access site investigations with mobilization restrictions. We can provide equipment packages for accessing any site, ...

Marcotte Machining's new Mancore 600TA is a demountable, heli-portable exploration drill rig specifically designed for operations in hard-to-reach or difficult areas.

Helicopter operators, offshore drilling contractors, and oil operators use strict safety procedures and features to protect crew transfers and equipment between the shore and offshore ...

For drilling projects in difficult access locations, Maple Leaf Drilling offers fly-in helicopter services. Our custom light weight drill rigs are capable of drilling ...

In this video you'll see how a drill is moved from one spot to another in the pursuit of seeking out precious metals Northern Canada. This is real life, and unfiltered, trying to keep as much ...
