

## Helicopter transportable drilling rigs

F1500 The F1500 was developed and built by Falcon Perforaciones Mexico in response to the need for a helicopter transportable drill with deeper drilling ...

A portable drilling rig which may be disassembled into subcomponent packages small enough to be transported to the site by helicopter and quickly reassembled utilizes unique chain drive ...

The Heliportable drilling units can be broken up into seven parts to enable the unit to be moved, setup and producing quickly in remote locations. Orezone ...

Geotech operates a fleet of heli-portable and skid mount drill rigs. Designed to complete the most remote of drilling programs, our heli-portable drill division is ...

ConeTec has developed custom equipment for heli-portable or remote access site investigations with mobilization restrictions. We can provide equipment packages for accessing any site, ...

HT stands for helicopter transportable. The drill rigs are all modular and can be transported to remote locations via helicopter. The modular design also permits the machine to be easily ...

Safety - Efficiency -Trust The EDM1500HP Heli Portable Drill rig has been designed as a high capacity drill, to operate in remote and difficult locations only accessible by helicopter. The ...

Drilling Equipment Diamond Core Drills Helicopter portable, track-mounted, man-portable, skid-mounted, underground, deep hole, and low environmental ...

CARE Industries has designed Heli-Portable drilling packages that are designed and fabricated with the rig crew in mind; fully modular construction with the ease of assembly and customized ...

E21B7/02 -- Drilling rigs characterized by means for land transport with their own drive, e.g. skid mounting or wheel mounting E21B7/027 -- Drills for drilling shallow holes, e.g. for taking soil ...

Heli-Portable Drills When mobilization is not possible by way of roads or trails, we still may be able to drill in your desired location. We have several large drills that can break down into ...

Hornet - Helicopter Portable RC Drill MPP's helicopter portable RC (reverse circulation) drill, the Hornet was developed for drilling programs in remote areas. The Hornet features a 45 HP ...

EDM 30K-HP Heli Portable Diamond Drill Up to 30klbf Holdback The EDM 30K-HP is a high-capacity

## Helicopter transportable drilling rigs

diamond core rig designed for operation in remote ...

Marcotte Machining's new Mancore 600TA is a demountable, heli-portable exploration drill rig specifically designed for operations in hard-to-reach or difficult areas.

Still the quintessential Helicopter Fly-In Rig, the BUSHMASTER is a modular, all hydraulic core drill rig designed for quick breakdown and setup in the most ...

Hornet - Helicopter Portable RC Drill MPP's helicopter portable RC (reverse circulation) drill, the Hornet was developed for drilling programs in remote ...

LS20H & LS30H For ultimate mobility for installation and operation in limited access regions, Loadmaster companies have designed and manufactured helicopter transportable drilling rigs. ...

We have several large drills that can break down into modular pieces designed for flying, as well as smaller drill options that can be flown as well. Whether it's helicopters, snow machines, ...

With available skid, shack and track carrier mounted configurations, and the versatile Discovery II is built for exploration diamond drilling. Check out the Discovery II product page for more ...

Three of our D50 drills are modular and able to be moved in parts by a helicopter or crane, and quickly reassembled on site. These rigs provide the ability to drill and sample both soil and ...

Diamond core drills for mineral exploration and mining industry. Available in surface and underground configurations. Track mounted and helicopter portable.

A heliportable drill rig, also known as a helicopter-portable drill rig, is a type of drilling equipment designed to be transported and deployed to ...

DA Smith's heliportable Longyear HC-150 diamond core drill is designed with modular components that can be disassembled into lightweight components ...
