

Hitachi air compressor screw parts

What is a Hitachi screw compressor?

Hitachi's screw compressor is a high-performance compressor that delivers high efficiency, high reliability, low noise, and low vibration. Such compressors are crucial elements in the air conditioning and refrigeration industry, and Hitachi's advanced new models meet these demands all over the world.

Does Hitachi oil-free screw compressor have condensation?

Tests and analysis of condensation of oil in the discharge air of Hitachi Oil-free Screw Compressor (DSP) are implemented ISO-8573-1 by a third party (TÜV), based on the ISO8573-1 standard. The testing established that the discharge air of Hitachi DSP is certified as the highest level of quality air - "Class 0"(zero).

Why should you choose Hitachi industrial products' genuine compressor spare parts?

Therefore, there is a large possibility that non-genuine parts will cause unexpected shutdowns of machine and serious damages. Hitachi Industrial Products' genuine compressor spare parts, made with advanced technology and expertise, ensure stable operation.

How many centrifugal compressors does Hitachi have?

Hitachi has supplied over 1300 centrifugal compressors around the globe, since the first one was completed in 1911. Centrifugal compressors meet various needs, and their main applications are in oil refineries, chemical plants, fertilizer plants, natural gas plants, steel plants, etc.
