

# How much does it cost to rent a water well drilling rig in China

How much does it cost to drill a well?

For example, drilling a horizontal well can cost over \$4 million and take about three weeks. Another big expense is labor. The job needs skilled people, with 40-50 companies often involved. Getting the site ready can cost over \$400,000. Moving and setting up the rig can cost between \$100,000 and \$350,000, depending on how far it needs to go.

How much does it cost to rent a rig?

The cost to rent a rig varies by type and location. Onshore rigs cost between \$200,000 to \$310,000 per day. Offshore rigs can be \$600,000 to \$800,000 per day. Buying a rig means a big upfront cost but saves money in the long run for frequent use. It lets you customize the equipment and avoids rental fees.

What is included in a water well drill rig rental?

Rental for the Water Well Drill Rig includes all accessories required to drill a maximum depth of 900 feet.

How much does a drilling rig cost?

Looking at the total cost of a drilling operation means more than just the rig's price. Fuel costs for big rigs can add up quickly, as they run non-stop. For example, drilling a horizontal well can cost over \$4 million and take about three weeks. Another big expense is labor. The job needs skilled people, with 40-50 companies often involved.

How much does a drilling rig cost in 2025?

Here's a table comparing the costs to buy new, buy used and rent a drilling rig in 2025: The cost of buying a new drilling rig ranges from \$3-4 million for basic land rigs to over \$1 billion for advanced offshore rigs.

Should you buy a used drilling rig?

The used drilling rig market is a cost-effective option for operators. Prices change based on age, condition, and demand. On average, machines stay listed for 180 days on used equipment websites. When looking at a used rig, buyers need to think about maintenance costs. These costs can be quite high.

The cost of the water drilling rig also depends on the type of drilling rig and the depth of the water. For example, the cost of a vertical well in South Texas can run to \$750,000.
