

Ht60 drill rig

What is the TH60 drilling rig?

The TH60 is a drilling rig designed by drillers, for drillers. It focuses on speed with safety and reducing manual labor. The rigs are flexible enough to handle a wide application range and meet individual operator preferences. Today, this operating system is the core of the T3W and TH60 drilling rigs.

What's included in a th60/t3w drill rig?

Tower/Mast for Ingersoll-Rand TH60 /T3W Drill Rig - Includes Tower - Feed Cylinder - Jib Boom Cylinders- Parts/Components as pictured - No top head (has been removed) - Tower was bent and being sold "as is", fo...

How does hydraulic th60 work?

By hydraulic pump flow to the cylinders, the TH60 maximum fast feed increased to 150 ft/min (45.5 m/min), getting you in and out of the hole electronic control to optimize the fuel-air mixture, engines became more fuel efficient. By applying this same concept to rig hydraulics, the TH60 and TH60DH are more fuel efficient and more productive.

What is a th60 & th60dh?

THE TH60 AND TH60DH UTILIZE a single 35 ft (10.6 m) derrick. This derrick enables conventional air-mud-DHD drilling with 20 ft (3 m) pipe. The derrick also handles a casing hammer, dual wall pipe (reverse circulation), simultaneous drill and drive with a DHD or driving casing from the top with a DHD.

Are the th60 & th60dh up to the job?

When just getting to the site is the challenge of the day, the TH60 and TH60DH are up to the job. THE TH60 IS DESIGNED TO HELP the crew work safer and faster with less manual labor.
