

Hydraulic chain horizontal down-the-hole drill rig

The KG430S/KG430SH down the hole drill rig for open use is an improved device in compliance with national regulations on diesel-engine emissions.

Air capacity is the most important factor affecting down-the-hole performance. The engine and compressor in a SmartROC drill rig are controlled by an intelligent system which delivers more ...

The KT11 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes. mainly used for open-pit mine, stonework ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression system and hydraulic ...

Down-the-hole (DTH) hammer drilling is often used to drill large, deep holes in hard rock formations or concrete. It is, as the name tries to explain, a hammer ...

The KT12 integrated down the hole drill rig is driven by the Cummins China stage III diesel engine and the two-terminal output can drive the screw compression ...

The KG420/KG420H drill rig is a hydraulic, diesel powered, self-propelled down the hole rig, designed for open use drilling operations. Equipped with a Yuchai four-cylinder engine, the drill ...

Full hydraulic down-the-hole (DTH) drilling rig is a drilling rig for sale that uses oil pressure to drive and control all moving parts in the process of adjusting the ...

A drilling rig is the most visible part of the drilling operation, however what is important is the underground activity and the main considerations in the selection of a rig are (King, 2012): (1) ...

Built for mobility and precise down-the-hole drilling in small to mid-scale construction sites, JC710 offers a balanced combination of compact design, efficient power transmission, and stable ...

Smith Capital Equipment has been manufacturing Auger and DTH drill rigs for over 4 decades and our products include auger and down-the-hole rigs. Typically these are mounted onto ...

Service KG420 Hydraulic Down The Hole Drilling Rig after-sales service should include technical support: Provide a professional technical support team, at ...

Hydraulic chain horizontal down-the-hole drill rig

Our KT5C Integrated down the hole drill rig for open use is an advanced drilling device with an integrated screw air compressor system. The equipment is compact in structure and mobile ...

Equipped with the Yuchai China stage III Engine, high strength aluminum alloy propulsion beam, automatic rod handling system, drill pipe lubrication module and efficient dust collection ...

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression ...

Having a knowledgeable and available world-class partner on site or online, makes the difference between doing it alone and tapping the experience and ...

Down the hole drilling rig has a hydraulic wet dust removal system with adjustable water volume and water pressure, and water pressure alarm function. The rig ...

This model is a full-hydraulic gyrator-type anchoring engineering drilling rig, which is mainly suitable for engineering construction such as foundation pit support and control of building ...

The SWDS 140C-DTH is a high-performance separated crawler mounted surface hydraulic down-the-hole (DTH) drilling rig, built for efficient rock and mining ...

Explore the most comprehensive line of surface rotary and DTH blast hole drilling rigs in the industry, with a multitude of configurations to choose from and scalable automation features.

Smith Capital Equipment has been manufacturing Auger and DTH drill rigs for over 4 decades and our products include auger and down-the-hole rigs. ...

The KG410/KG410H down the hole drill rig is particularly suited for operation in open pit mines and stone quarries. It comes equipped with a Yuchai four-cylinder engine (China III) and ...

Introduction KG420 Hydraulic Down The Hole Drilling Rig is a type of drilling equipment used in various industries, particularly in mining, oil and gas exploration, and geothermal energy ...

1. Using its single power to drive the screw air compressor and drilling rig hydraulic system at the same time, compared with the separated DTH drilling ...

The KG520/KG520H down the hole drill rig is designed for large and medium-sized quarries and contractors. The drill rig features a folding frame track and ...

The KG420/KG420H drill rig is a hydraulic, diesel powered, self-propelled down the hole rig, designed for

Hydraulic chain horizontal down-the-hole drill rig

open use drilling operations. Equipped with a Yuchai ...

JK Drilling is a leading dth boring machine supplier, offering crawler mounted hydraulic down the hole drill rigs. Our rigs can drill holes ranging from 90-305mm in diameter and 18m-200m in ...

Having a knowledgeable and available world-class partner on site or online, makes the difference between doing it alone and tapping the experience and know-how. The customer can count on ...

We manufacture and sell hydraulic tongs for use in all drilling industries including down-the-hole (oil well drilling, water well drilling, construction, mining) and ...

The KG430H down the hole drill rig for open use is equipped with a dust collector, thus making operation more environment-friendly and reliable.

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH ...

The ZT44 is a down-the-hole surface drill rig designed for mining-duty applications. It offers high reliability and production with purpose-built structures, a high horsepower engine and large ...
