

## Italian open-pit down-the-hole drill rig

How does a toe-hole drilling machine work?

Toe-hole drilling is possible with a simple re-pinning operation. The well positioned, manual type swing control panel allows the operator to see the hole clearly and position the rig with precision. The design of the machine is simple. Main components are conveniently accessible for service and maintenance, when required.

Which drill rig is best?

The hole range is from 35 mm - 115 mm diameter. AirROC T25 and AirROC D40 are the ideal 'Compact Solution' drill rigs. High operational efficiency from the rig is achievable with its easy handling and interchangeable features. The machines are compact enough for convenient transportation over long distances.

Which rig is best for a 'compact solution' drill rig?

Quick interchangeability between the drilling methods is added as one of the merits, which is not possible on normal rigs. The hole range is from 35 mm - 115 mm diameter. AirROC T25 and AirROC D40 are the ideal 'Compact Solution' drill rigs. High operational efficiency from the rig is achievable with its easy handling and interchangeable features.

As a kind of professional blasthole drilling equipment, this borehole drilling rig can be widely used for rock blasting operations in many cases like small or medium open-pit mines, water ...

DMiningwell 416T-1 small split down-the-hole drill rig is mainly used in quarries, cement mines, open-pit coal mines and other types of mines. It is equipped with a 3.5-inch impactor, a main ...

**SIMPLY BY CHANGING THE HAMMER** In open-pit mines around the world, large down-the-hole drill rigs are working nonstop 24/7. In this context, the new Tundo™ RH650 DTH hammer ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes.

**#KOONSA KS188 Integrated Down-the-hole Drill Rig Is Suitable for Open-pit Coal Mines, Metal Mines, Cement Mines, Etc. Drilling Diameter:90mm-150mm Drilling Depth:30m #Drilling rig ...**

Rotary Blasthole Drilling Rig, KG310/KG310H Surface down-the-hole drill rig for open-pit mining The rotary blasthole drilling rig is equipped with an off-road ...

The KG9 down the hole drill rig is designed for open pit mines and quarries for drilling holes with a diameter of 105-152mm in vertical, inclined, and horizontal orientation.

High operational efficiency from the rig is achievable with its easy handling and interchangeable features. The

# Italian open-pit down-the-hole drill rig

machines are compact enough for convenient transportation over long ...

PDKJ720S Down-The-Hole Drill Rig is the Plus version of PDKJ712. Upgrade the hydraulic system, increase the system flow, and increase the rotation speed. Increase the ...

KT12 Integrated Down the hole Drill Rig The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw ...

MWYX-430 separated DTH drilling rig has an optional maximum rotation torque of 7000N.m and is suitable for pit foundation anchor rods, root canals, and large ...

The reason customer want to drill the hole is that drill and blast is the most efficient and economic way to break rock instead of excavating it. ...

Equipped with the Yuchai China stage III Engine, high strength aluminum alloy propulsion beam, automatic rod handling system, drill pipe lubrication module and efficient dust collection ...

1. MWYX-425 separated DTH drilling rig is widely used in various open pit mines, quarries and engineering construction sites. Aperture range 110-138mm. The ...

The most productive drill available for rotary tricone and down the hole drilling of 171mm to 270mm (6-3/4" to 10-5/8 ") holes with up to 59 ft (18 m) clean hole ...

KT5D Integrated Down The Hole Drill Rig For Open Use can drill vertical, inclined and horizontal holes, used for drilling and pre-splitting holes in open pit mines and stone works, etc.

The open-pit down-the-hole drill is a high-efficiency drilling equipment specially designed for open-pit working environments. It has strong drilling capabilities and can play an important role in ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework ...

1. Using its single power to drive the screw air compressor and drilling rig hydraulic system at the same time, compared with the separated DTH drilling rig, the comprehensive fuel consumption ...

The purpose of these BOP & Well Control drills procedures or exercises is to familiarize rig personnel with the various equipment and with ...

KT25 open-pit down-the-hole drilling rig is a new type of drilling equipment carefully designed for the needs of large open-pit mines on the basis of years ...

## Italian open-pit down-the-hole drill rig

The D470A down-the-hole open pit drill rig, crafted for challenging conditions and strenuous tasks, is ideal for extensive rock drilling, excelling in everything from pre-split to ...

The KG320/KG320H down the hole drill rig blast drilling rig for open use is an improved device in compliance with national regulations on environmental ...

It adopts new hydraulic technology and is suitable for rock drilling in open-pit mining, road construction, water conservancy, power stations and other projects.

The PV-271 is one of the most productive drills available for rotary tricone and down-the-hole drilling of 6-3/4 in to 10-5/8 in (171 mm to 270 mm) diameter holes.

KT7C Integrated Down the hole Drill Rig for Open Pit Mines and QuarriesThe KT7C high air-pressure down the hole drill rig for open use is an advanced drilling device integrating a down ...

Kaishan Portable Blast Hole Open Mine Drilling Machine KG726 Down The Hole Hammer Drill KG726/KG726H open-pit DTH drilling rig is an upgraded ...

The KG420/KG420H drill rig is a hydraulic, diesel powered, self-propelled down the hole rig, designed for open use drilling operations. Equipped with a Yuchai four-cylinder engine, the drill ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes, It is driven ...

GL726 crawler down-the-hole drill carriage is mainly used for drilling blast holes in open-pit projects such as mining and quarrying, road construction, water ...
