

Kaishan automatic rod-changing down-the-hole drill rig

Does the KT12 integrated down the hole drill rig have a cab?

The KT12 Integrated Down the hole Drill Rig comes with an air conditioned cab for comfortable operation.

What is a drill rig used for?

The rig is most commonly used for open-pit mines, stonework blast holes, and pre-splitting holes. The drill rig is equipped with an automatic rod handling system and lubricating module of the drilling rod, meaning only one operator is needed and fewer mining operations are required.

What kind of engine does a KT12 drill rig use?

The KT12 integrated down the hole drill rig is driven by a Cummins China stage III diesel engine and the two-terminal output can drive the screw compression system and hydraulic transmission system. It is capable of drilling 115-152mm vertical, inclined, and horizontal holes.

How does a drill rig work?

The drill rig is equipped with an automatic rod handling system and lubricating module of the drilling rod, meaning only one operator is needed and fewer mining operations are required. The main control action is integrated into one handle for greater user-friendliness.

The drill rig is equipped with high strength aluminum alloy propulsion beam, variable hydraulic system, automatic rod handling system, drill pipe floating ...

KS311 hydraulic drilling rig is used for blast hole and drilling anchor hole, it can operate in the section with 3.5-5m width and 3.5-5m height. the drill boom can be rotary 360°; it can drill in 3m ...

The ZT10 down the hole drill rig for open use is a new drilling developed by Kaishan Group after years of development and production of down the hole drilling rig to meet the needs of large ...

The KT25 integrated down the hole drill rig for open use can drill vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast ...

KT11 integrated surface DTH drilling rig is using Cummins three diesel engines as a single power, by both ends of the output at the same time to drive the screw ...

The ZT10 integrated down the hole drill rig for open use is an advanced piece of drilling equipment developed by Kaishan Group to meet the needs of large open-pit mines. Its travelling, ...

The KT15 integrated down the hole drill rig for open use is a new drilling device developed by our company

Kaishan automatic rod-changing down-the-hole drill rig

after years of development and production of ...

KAISHAN High performance KT12 Kaishan DTH Diesel Crawler Down the Hole Blasting Mining Drill Rig for mine blasting hole KT12 integrated DTH drilling rig ...

Kaishan KT7C blast hole drilling rig is robust performance in hard rock, fuel efficiency, wide drilling range & versatility, and easy maintenance.

It is mainly used for open-pit mines, stonework blast holes, and pre-splitting holes. The drill rig is equipped with an automatic rod handling system and lubricating ...

Besides, the drill rod of the high pressure integrated drilling rig is quite easy to be removed by one person because the hydraulic mechanical arm and drill rod storage room are both available. ...

The KT20S integrated dual-power down the hole drill rig for open use is a heavy duty piece of drilling equipment developed by our company. It is fully equipped to meet the needs of large ...

The KT15C integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes.

Kaishan KT11 integrated surface DTH drilling rig drives both the hydraulic system and high pressure screw compression system with a power and has function modules, including auto ...

It is mainly used for open-pit mines, stonework blast holes, and pre-splitting holes. The drill rig is equipped with an automatic rod handling system and lubricating modular drilling rod. This ...

As a manufacturer of DTH drilling rigs, we provide this KT15C integrated down-the-hole drill rig for open use. It can drill vertical, inclined and horizontal holes, ...

Kaishan KT15 blast hole drilling machine is robust performance in hard rock, fuel efficiency, wide drilling range & versatility, and easy maintenance.

The KT25 integrated DTH drilling rig drills vertical, inclined, and horizontal holes for mining and rock projects. Powered by a Caterpillar engine, it includes ...

Kaishan DTH Drilling Rig ZT10 Integrated Automatic Pole Change Quarry Blast Mine Drilling Rig With Built-in Compressor ZT10 integrated DTH drilling rig ...

The KT12 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine stonework blast ...

Kaishan automatic rod-changing down-the-hole drill rig

The Kaishan KT15 high pressure integrated drilling rig is specially designed as a high efficiency mining machine for large scale open-pit mines based on our years of experience designing ...

Integrated Surface DTH Drilling Rig The drilling rig is equipped with automatic unloading rod system and drill rod lubrication module, which can realize single ...

The KG520/KG520H down the hole drill rig for open use is an improved device in compliance with national regulations on diesel-engine emissions.

Kaishan KT15C blast hole drilling rig delivers fast, powerful drilling for mining and construction, operating reliably in extreme climates. Contact us now!

The ZT10 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. ...

Kaishan DTH Drilling Rig ZT10 Integrated Automatic Pole Change Quarry Blast Mine Drilling Rig With Built-in Compressor ZT10 integrated DTH drilling rig takes Yuchai Guosan diesel engine ...

35m depth kt25 Efficient dust collection system dth Blasting hole integrated mine drill rigs for open Use mining KT25 open-pit down-the-hole drilling rig is a new ...

Kaishan KT15C DTH blast hole rig has high-capacity rock drilling in quarries, opencast mines & construction. Great usability, efficient rig operation.

The ZT11 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre-splitting holes. ...

The KT25 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework ...

The ZT11 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast ...

Products Description The KT15 integrated down the hole drill rig for open use can drilling vertical, inclined and horizontal holes, mainly used for open-pit mine, stonework blast holes and pre ...
