

Klemm drill rig

The KLEMM line of rigs are ideal for a wide range of drilling and ground improvement applications including micropiles, jet grouting, tieback ...

As power unit for the drill rig, two different diesel power packs and one electric power pack are available. The power packs offer a modern high pressure hydraulic system for the operation of ...

Equipment Corporation of America is the North American leader in the distribution and service of drilling and pile driving foundation equipment for leading brands ...

The modularity of the drill mast allows the adaption of a variety of options which makes the drill rig universally applicable, e.g. for anchoring, micro piling, jet grouting and geothermal drilling. ...

High performance With an engine power of up to 245 kW, the crawler drilling rig KR 807-7G or the KR 807-7GP variant is the most powerful drilling rig of ...

The KR 800-3G is a powerful, compact drilling rig with a total weight of 9.5 t for a wide range of drilling tasks. The 100 kW CAT diesel engine complies with the ...

Drilling Rig The drilling rig KR 807-7G represents the consequent further development in the KR 807 model series that conforms to the exhaust emission standards EEC 4 / EPA TIER 4f. With ...

KLEMM Micropile drilling machines KLEMM Bohrtechnik develops and manufactures drilling rigs and drilling equipment in the field of special foundations. As proof of the high degree of ...

With an engine output of 250 kW, this newly developed geothermal drilling rig is designed for drilling depths of over 400 m. The new drill mast provides a ...

Almost anything is possible Drilling systems In the last five decades, KLEMM Bohrtechnik has decisively contributed to the development of the drilling systems that are currently available on ...

The anchor drilling rig with on-board magazine and manipulator MAG 6.1 for double rods. With the drive train of the KR 806-3GS - developed for heavy double head overburden drilling which ...

Klemm offers several different types of drilling rigs and accessories, these include: Power Packs: powerful and highly efficient, Klemm's power packs are used as separate drives for compact ...

The drilling rig type KR 806-3GS is currently the most advanced version from the KR 806 range. Originally

Klemm drill rig

designed as an anchor drilling rig for double-head ...

KLEMM Bohrtechnik GmbH is a global leader in developing and producing complete drilling systems. The company produces most of their products on site in Drolshagen - everything ...

Versatile drilling rig concept The drilling rig can be used in a range of ways, for example for micropiles and mini piles, GEWI piles, for underpinnings, jet ...

The powerful drilling rig for vertical applications, e.g. in-situ concret piles, H-beam pre-drilling, high-pressure injections and similar tasks in the special foundation ...

This document provides specifications for a KLEMM KR 806 drilling rig. The rig weighs 12,000 kg and has a transport width of 2.35 m, length of 8.4 m, and height of 2.85 m. It is powered by a ...

The KR 909-2 is a powerful yet simple structured drilling rig. With tried and tested KLEMM additional components, it can be adapted for a variety of tasks quickly and easily. It is ...

A large range of Klemm Drilling Rigs for Construction type Drilling Applications. Quality product built to a Certified Standard. Service and Support here in New ...
