

The drilling rig type KR 806-3GS is currently the most advanced version from the KR 806 range. Originally designed as an anchor drilling rig for double-head ...

Customers can trust KLEMM because KLEMM drilling rigs are reliably designed for the most demanding drilling conditions. Every detail is well thought-out, perfected, high in quality, ...

About Klemm Drilling Rigs Reliable and customer-oriented, Klemm offers their customers robust products from experienced workers. Klemm stands on a solid foundation of high-quality ...

The KR 800-3G is a powerful, compact drilling rig with a total weight of 9.5 t for a wide range of drilling tasks. The 100 kW CAT diesel engine complies with the ...

Versatile drilling rig concept The drilling rig can be used in a range of ways, for example for micropiles and mini piles, GEWI piles, for underpinnings, jet ...

KLEMM Bohrtechnik presented several of its compact anchor and geothermal drilling rigs at bauma 2025 - including two new developments.

Klemm offer a selection of rigs and drilling equipment for the foundation industry, with reliability and efficiency at the forefront of their agenda. Across the current ...

The KR 909-2 is a powerful yet simple structured drilling rig. With tried and tested KLEMM additional components, it can be adapted for a variety of tasks quickly ...

The drilling rig is prepared for guidance and discharge of drill backflow and cuttings, for handling of the drill rod and the casing, for the handling of probes ...

The KR 909-3G is a compact and powerful machine which can be easily adapted to a variety of tasks with reliable KLEMM additional components. It complies ...

The powerful drilling rig for vertical applications, e.g. in-situ concret piles, H-beam pre-drilling, high-pressure injections and similar tasks in the special foundation ...

The KLEMM line of rigs are ideal for a wide range of drilling and ground improvement applications including micropiles, jet grouting, tieback ...

The compact drilling rig for shallow geothermal work. Cased heat-loop bores in overburden soil, up to 300 m

Klemm drilling rig

per individual probe length. Primed for the use of a downhole hammer.

Application in urban environments In an urban environment and inside existing buildings, the KR 704-3G scores points with high performance, compact ...

High performance With an engine power of up to 245 kW, the crawler drilling rig KR 807-7G or the KR 807-7GP variant is the most powerful drilling rig of ...

Drill Rig KR 702-2 with power pack on crawler track The KR 702-2 is the machine of choice amongst KLEMM drill rigs where jobsites with confined conditions is concerned. Particular ...

KLEMM Bohrtechnik develops and manufactures drilling rigs and drilling equipment in the field of special foundations. As proof of the high degree of innovation and technical expertise, we find ...

Compact and powerful The KR 801 defines its own class of especially compact and at the same time universally usable drilling rigs. With a 2200 mm wide ...

Klemm drilling rig
