How does a screw air compressor work?

Screw air compressor is divided into air cooling type and water cooling type,through the fan or water forcing cooling. Air cooling system consists of cooling fan,oil coolers and air cooler. The cooled air is pumped into the fan; go through oil cooler and air cooler,and at the same time,cool and compressing lubricating oil and air.

Our screw compressors ensure high output and lower power consumption. Sperre compressors can be installed without the use of special tools. Internal air-circulation ensures efficient ...
