

Land rigs that use stasis drilling solutions

Who is stasis Drilling Solutions?

Stasis Drilling Solutions is a privately held oilfield service company incorporated in Bossier City, LA with our corporate office being based in Houston, TX U.S.A.

What is rig equipment?

Our Rig Equipment team designs, manufactures, and sells land rigs, complete offshore drilling packages, and drilling rig equipment and components designed to mechanize and automate complex drilling rig processes. Our prolific portfolio includes several industry-first equipment innovations including the top drive and iron roughneck.

What is a land drilling rig design?

This is a key feature in modern land drilling rig manufacturing. In addition to that, this rig design features a wide work area with large space for rig equipment. This allows for faster and better automation of the drilling process while keeping personnel safer at reduced risk.

What is stasis drilling choke?

The STASIS Drilling Choke provides reliable wellbore pressure control in Managed Pressure Drilling, Underbalanced Drilling, and Well Pressure Control. The STASIS IMPACCT(TM) control system enables precise and automated control of the managed pressure drilling process, resulting in enhanced operational efficiency. Mud Weight on Demand

What is a multi-environmental drilling rig?

We design and build multi-environmental drilling land rigs, for conventional and unconventional petroleum resources, which can operate in residential/urban areas, National Parks / Reserves, or any protected environment during animal migration seasons. The Drilling Control System (DCS) is at the heart of your drilling rig operations.

What is the stasis team?

The Stasis Team is focused on continuing the innovation of Managed Pressure Drilling equipment, engineering, and services within the global community.

Our Stasis Drilling Solutions is redefining Managed Pressure Drilling (MPD) by putting customers at the center of everything we do. Our commitment to exceptional service, ...
