What is a boss drilling rig?

In 2014, Unit debuted its proprietary designed BOSS drilling rig. This purpose-built, 1,500 horsepower, AC, super-spec rig combines the best technological innovations into a single rig to meet the market's ever-changing demands. Currently, Unit operates 14 BOSS drilling rigs in our core operating basins.

How many boss rigs are there?

Unit's fleet is comprised of 14 super-spec, AC, BOSS rigs. The super-spec BOSS rigs are equipped with high-torque top drives and (2) 2,200 horsepower 7,500 psi quintuplex mud pumps and automated, walking catwalks. The BOSS rigs have racking capabilities ranging from 22,500 to 26,500 feet for today's horizontal drilling requirements.

How long does a boss rig training take?

To prepare its crews for the new technologies on the BOSS rigs, Unit Drilling is putting its employees through approximately 60 days of training. The first BOSS rig began operating in the Granite Wash in Texas' Hemphill County at the end of March, drilling horizontal wells with 14,500-ft to 16,000-ft MDs.

Can a boss rig make a faster rig-up?

Overall, he said, he believes the BOSS rig can achieve a 15% quicker rig-up compared with other advanced-technology, fast-moving rigs and up to 40% quicker compared with conventional box-on-box rigs. Another feature is the two 2,200-hp quintuplex mud pumps, which Unit Drilling opted over triplex versions for higher pump output.

Where is rig 401 used?

Rig 401, the first in Unit Drilling's BOSS series, is working in the Granite Wash for Unit Petroleum. The rig is ideal for horizontal and pad drilling operations, according to the company. Unit Drilling has put the first of its newly designed BOSS series, Rig 401, to work in the Texas Panhandle for Unit Petroleum.
