

Performance data ... Above drilling depths are valid for standard tools and for an X value of 450 mm (see above illustration). \* Other drilling diameters available on request

With the LB 45, Liebherr presents its successor to the proven drilling rig LB 36-410. Its torque is 450 kNm - a 10 % increase in comparison to its predecessor. Various methods such as Kelly ...

With the LB 45.1, Liebherr presents its successor to the proven drilling rig LB 36-410. Its torque is 450 kNm - a 10 % increase in comparison to its ...

The ergonomically designed cab provides the operator with an unlimited view of the operating area. The standard equipment of the Liebherr rotary drilling rigs includes numerous innovative ...

A higher torque, a wider range of applications and useful assistance systems for improved operator comfort and increased safety in one elegant design: Liebherr presents the ...

A higher torque, a wider range of applications and useful assistance systems for improved operator comfort and increased safety in one elegant design: Liebherr presents the new drilling rig LB 45 ...

Precise and robust Liebherr casings and drilling tools provide excellent drilling performance. The operating weight includes the basic machine LB 44-510 (with rotary and Kelly bar MD 36/3/30) ...

With the LB 45, Liebherr presents its successor to the proven drilling rig LB 36-410. Its torque increases by 10% to 450 kNm. Various methods such as Kelly ...

The Liebherr LB 45.1 is a rotary drilling rig. It can drill to a maximum depth of 95m and can handle pile diameters up to 4.5m. Packaging The model comes in a large Liebherr-style box and it is ...

Liebherr's new LB45 drilling rig features 10% more torque to provide customers with improved performance. Liebherr presents the LB 45 drilling rig ...

Performance data ... Above drilling depths are valid for standard tools and for an X value of 1.5 ft (see above illustration). \* Other drilling diameters available on request

Liebherr's LB 45 is the successor to its proven drilling machine LB 36-410. It has 450 kNm torque - a 10% increase compared to previous torque. Various methods may be used, such as ...

At this year's Bauma, Liebherr will be presenting the latest generation of the LB 45.1 drilling rig in the field

## Lb45 drill rig

of deep foundation. Thanks to the new lattice boom extension and ...

The new Liebherr LB 45 drill rig delivers a torque of 450 kNm, an increase of approximately 10% in comparison to the LB 36. Both the counterweight and the leader of the LB 45 are modularly ...

With the LB 45.1, Liebherr presents its successor to the proven drilling rig LB 36-410. Its torque is 450 kNm - a 10 % increase in comparison to its predecessor. Various methods such as Kelly ...

Rope crowd system Crowd force (push/pull) 89,923 lbf Line pull (effective) 44,961 lbf Rope diameter 28 mm Travel with standard leader between mechanical limit stops 58.4 ft Rope ...

At the same time, the maximum drilling depth for Kelly drilling with 5-fold Kelly bar has been increased to 100 m and so significantly improved. The ...

With the LB 45, Liebherr presents its successor to the proven drilling rig LB 36-410. Its torque increases by 10% to 450 kNm. Various methods such as Kelly drilling, continuous flight auger ...

Liebherr LB 45 drilling rig, compared with its LB 36 predecessor, is designed to deliver higher torque, a wider range of applications, and added ...

The new LB 45.1 is designed for all common piling methods in deep foundation work. These include Kelly drilling, continuous flight auger drilling or double rotary drilling. For ...

Deep, deeper, LB 45.1 The further development of the proven LB 45 masters all drilling methods such as Kelly drilling, continuous flight auger drilling, full displacement drilling, double rotary ...

Liebherr has introduced the successor to its LB 36 drilling rig. The new LB 45, introduced at bauma, features higher torque, tackles a wider ...

Liebherr introduces the new concrete drilling rig LB45 with new designs and feature updates. The new drilling Rig LB 45 provides increased performance ...

Remote-controlled assembly and disassembly is the simplest and safest option. Liebherr offers a wide range of products. The maximum drilling depth extends to over 120 metres. The drill ...

When using a short leader lower part the drilling depth is reduced by 5.7 ft for a drilling axis of 4.3 ft, and by 7.6 ft for a drilling axis of 5.9 ft. Length of drilling tool 6.2 ft

## Lb45 drill rig
