

Lm 110 drill rig

What is a Boart Longyear lm110 drill rig?

The LM110 is the most powerful Boart Longyear underground diamond coring drill rig to date. Boart Longyear expanded their line of underground LM modular diamond drill rigs to include the new LM110. Ideal for drilling deep holes, the LM110 is the most powerful Boart Longyear underground diamond coring drill rig to date.

What is a lm110 drill rig?

The LM110 was designed as a modular drill rig with a number of options for site-specific customization. This drill is easy to use and upgrade to meet the needs of future drilling projects. An optional patented rod handler can be added to the LM110, which greatly increases driller safety.

What makes a Boart lm110 a good drill?

Also featuring a 128 kN feed frame, the LM110 provides high pullback force and a fast rod-handling rate, which allows for increased drilling productivity. "Our underground drilling customers requested a drill that could provide more torque at the drill head" said Justin Warren, senior product manager for Boart Longyear.

Which Boart Longyear Drill rig is best?

Ideal for drilling deep holes, the LM110 is the most powerful Boart Longyear underground diamond coring drill rig to date. Equipped with a 110-kilowatt power pack, the LM110 delivers up to 33 percent more torque at the drill head than the LM90 -- which was previously Boart Longyear's most powerful underground diamond drill rig.

How does a LM rig work?

The LM series drill rigs are equipped with a 130kN feed frame for drilling deep holes. With the assistance of a positioner and a turntable, the drill is capable of drilling holes in all angles from vertically up to vertically down. The drill uses an electric motor to power the hydraulics on the machine. Features of the LM90 & 110 rigs:

How many drill rigs does geodrill have?

Geodrill operates a fleet of ten (10) underground LM 90 & 110 drill rigs that provide mineral exploration and grade control drilling services. The LM series drill rigs are equipped with a 130kN feed frame for drilling deep holes.

"Because of the modular nature of the LM series, Boart Longyear can provide the 110-kilowatt power pack as an upgrade kit to customers that already own an LM series drill rig, ...

Equipped with a 110-kilowatt power pack, the LM110 delivers up to 33 percent more torque at the drill head

Lm 110 drill rig

than the LM90 -- which was previously Boart Longyear's most powerful ...

LM90 & 110 UG Geodrill operates a fleet of ten (10) underground LM 90 & 110 drill rigs that provide mineral exploration and grade control drilling services. The ...

drilling. in confined areas where hand-held tools aren't enough, and is light enough to transport by helicopter. Like all Ingersoll-Rand crawler drills, the LM100A is "Abuse Resistant". It keeps ...

LM(TM)110 - Equipo de Perforación Diamantina Subterránea Eleva su rendimiento con una mayor potencia en la perforación, sin afectar la productividad de su proceso, gracias a un equipo de ...

ROUND CORING DRILL The LMTM110 is the most powerful underground diamond coring drill offered by Boart Longyear, suited for deep-hole drilling. Equipped with a 128 kN feed frame, ...

Conçu pour le forage de trous plus profonds, de manière plus productive. Alimenté par un nouveau bloc d'alimentation de 110 kW, le LM110 offre la plus grande capacité; et ...

Productivity New 110 kW Power Pack Option - Up to 33% more torque available at the drill head for increased drilling productivity. LM110 (200rpm Rotation) 600 LM90 (160rpm Rotation) ...

The LM110 was designed as a modular drill rig with a number of options for site-specific customization. This drill is easy to use and upgrade to meet the needs ...

Ideal for drilling deep holes, the LM110 is the most powerful Boart Longyear underground diamond coring drill rig to date.

Modular design of LM(TM)110 give you a greater versatility and its 110kW electro-hydraulic power pack will give you more torque to drill even further. LM(TM)110 features a patented rod-handler ...

Upgrade the controls system with the DCi for improved safety and productivity. The DCi offers unattended drilling and semi-automated functions and operates ...

Equipo subterráneo de extracción de testigos LM (TM) 110 CONFIABLE El LM110 presenta un sistema hidráulico de detección de carga, controles ...

Description The Drill Control Interface (DCi) is a fully electronic interface that allows one operator to control both the drill rig and the rod handler while providing real-time feedback on drilling ...

The rig is modular in design with a number of options which make it easier to tailor to specific needs and to upgrade when requirements change. With the assistance of a positioner and a ...

Lm 110 drill rig

Boart Longyear, the world's leading provider of integrated drilling services, equipment and performance tooling, has expanded their line of underground LM(TM) modular diamond drill rigs ...

o LM(TM)110 Underground Rig The LM(TM)110 was designed as a modular drill rig with a number of options for site-specific customization. An optional rod ...
