What is a screw compressor?

A screw compressor is a type of compressor that employs screws to continuously compress fluids. One notable example is the air compressor, where air drawn in from the intake is compressed between a pair of screws and discharged as compressed air. This is the principle behind screw compressors known as the twin-screw type.

Are all air compressors made in USA?

Although none of the companies in this list make air compressors that are 100% made in the USA, they all are either engineered and/or assembled in America. This page contains affiliate links.
