

Low profile drill rig

The Robbins 91RH C is the most recent addition to the Robbins low profile series that brings the benefit of raise boring to more underground mine locations. Its modular design enables ...

Sandvik DS211L-M is a low-profile bolter engineered for rock reinforcement in excavations with headroom as low as 2 meters (6.5 feet). The dedicated ...

SANDVIK DD210L UNDERGROUND DRILL RIG TECHNICAL SPECIFICATION Sandvik DD210L is a low profile single boom electro hydraulic drilling machine designed to work in excavations ...

Center Rock's mining drill is specially designed for angled holes with special features for applicability in the harsh, underground mining environment.

LOW-PROFILE BOLTER TECHNICAL SPECIFICATION Sandvik DS211L-V is a low-profile single boom KEY FEATURES electro-hydraulic drilling machine ...

Epiroc's rugged face drilling rigs are built for blast hole drilling in underground mining and tunneling. Choose your model of jumbo here and read more!

Boomer M1 L is a robust, hydraulic face drilling rig suitable for low-to-medium height applications with cross sections up to 36 m². This rig boasts a strong BUT 29 boom and a COP rock drill ...

Boomer S1 L is a low-profile hydraulic face drilling rig suitable for small drifts and tunnels with cross sections up to 29 m². The BUT 28 boom allows for fast, precise positioning with ...

Our Low-Profile Hydraulic Face Drilling Rig is engineered with cutting-edge technology, ensuring efficient and reliable operation. Its low-profile design allows for easy maneuverability in tight ...

This drill rig is engineered for excavations, development and production drilling with headroom as low as 1.7 meters (5.6 feet). Other types option, like low profile rock support drill rig, longhole ...

Sandvik DD211L-V is a single-boom, low-profile drill rig engineered for excavations with headroom as low as 2 meters (6.6 ft.). The carrier, multi ...

Boomer S1 L is a low-profile hydraulic face drilling rig suitable for small drifts and tunnels with cross sections up to 29 m². The BUT 28 boom allows for fast, ...

The Boomer S10 face drilling rig is engineered for demanding mining and tunneling applications. Its highly

Low profile drill rig

MDR Mining Drilling Rigs durable design ensures precise positioning, rapid drilling cycles and reliable ...

The Ultra Low Profile is designed to fit into the most height restrictive areas at only 150mm high. Small in stature but not in power, this drill will handle up to ...

Split Mountain KJ212, is a single-boom, electro-hydraulic low-profile development drill rig, an ideal choice for platinum and chrome mines, headroom as low as 1.7 meters (5.6 feet)

The Robbins 91RH C is the most recent addition to the Robbins low profile series that brings the benefit of raise boring to more underground mine locations. Its ...

Underground Drilling Rigs DERUI along with ODM professional partner offers a wide variety of extremely productive and reliable mining jumbos equipped with up to three booms and mining ...

TECHNICAL SPECIFICATION Sandvik DD220L is a low profile twin-boom electro-hydraulic drilling machine designed to operate in the excavations with a headroom as low as 1.7 m. The ...

KJ212 hydraulic tunneling drilling rig is a low profile drill rig able to drill vertical, inclined or horizontal holes.

The Low-profile range offers a productive and low-cost solution in low seam. From drift 1.7m height with reduced dilution, up to large drill coverage up to 8 m lateral width drilling and bolting.

TECHNICAL SPECIFICATION Sandvik DL230L is a low-profile single-boom electro-hydraulic production drilling jumbo designed to work in excavations with headroom as low as 1.7 meters. ...

VERY LOW PROFILE ELECTRIC DRILL FOR RESTRICTED SPACE The D1 Low Profile is an ultra-low-profile mag drill, that fits in the tightest of work spaces. It is a perfect solution for any ...

Low profile mining equipment - okdgroup Low profile mining equipment Products. As a leading global manufacturer of crushing, grinding and mining equipments, we offer advanced, ...

Its telescoping kelly bars allow you to drill to depths of 90 feet (27 meters) under severe overhead restrictions with a very low profile attachment--even in the most unfriendly conditions. We'll ...

AARD Boomer S10 L The AARD Boomer S10 L is the ultimate underground face drill rig for low-profile mining operations, combining exceptional manoeuvrability with the trusted drilling ...

UNDERGROUND DD211L -V DRILL RIG TECHNICAL SPECIFICATION DD211L-V is a single-boom low-profile drill to work in excavations with headroom as low as two meters. The carrier, ...

Low profile drill rig

As our workload and opportunities increase, ATL placed an order low-profile drill rig to meet various project needs. The addition of the new drill ...

Versatile and productive in low-profile drifts Sandvik DD211L is a low-profile single-boom electro-hydraulic drill designed to work in excavations with headroom as low as 1.7 meters.
