

# Manual rock drill

What is a 9 to 60 lb rock drill?

Our 9 to 60 lb class Rock Drills are ideal tools for drilling holes for anchor bolts, hard-faced rock surfaces, or drilling secondary holes for blasting. With 2,100 to 3,400 BPM and an attachable APT valve, our tools can be used in wet or dry environments and are powerful enough for all your drilling needs!

Do you need a rock drill?

You need a rock drill that lets you focus on drilling accurate blow and support holes. Fast and safe. The RD100 has a soft start function that is easy to reach with one hand. This means you can work with more precision, and collaring is made especially easy. When it's time to go faster, the RD100 is one of the most powerful drills on the market.

What is a PT M109 rock drill used for?

Lightweight and easy to handle, the APT M109 rock drill is perfect for drilling anchor bolt holes and small dowel holes. A built-in stop rotation feature lets the user easily switch from drilling to percussion-only mode, providing added flexibility for different tasks on the job.

How does the APT M115 rock drill work?

A built-in stop rotation feature lets the user easily switch from drilling to percussion-only mode, providing added flexibility for different tasks on the job. Built for versatility, the APT M115 rock drill handles anchor bolt and dowel hole drilling with ease.

What is a Toku Rock Drill?

The Toku TH-800 and THD-1100N are lightweight drills that are able to get into smaller spaces other drills cannot. These D-handled drills pack big power in a compact package. All Toku rock drills feature replaceable chuck bushings, drop forged alloy steel construction, and forged latch retainers.

What is a PT M115 rock drill used for?

Built for versatility, the APT M115 rock drill handles anchor bolt and dowel hole drilling with ease. The stop rotation feature lets the user switch to percussion-only mode, making it a great choice for light chipping in horizontal or overhead applications.
