

Mc8d drill rig

What is a MC 8d rig?

Roll-off system The MC 8D is a versatile and powerful hydraulic drilling rig, designed for civil engineering works such as micropiles, anchors and ground improvement in general through the use of all rotary and/or rotary- percussive drilling systems.

What is the MC 8d?

The MC 8D represents an innovation in the field of hydraulic crawler mounted drilling rigs for small and medium drilling. The small dimensions and the great variety of articulations that characterize the equipment make it the perfect solution for foundation works in narrow spaces and difficult access areas.

What types of drilling systems can the MC 8 handle?

Equipped with advanced modular hydraulic circuits, the MC 8 can accommodate a wide range of rotary heads, hydraulic drifters, double head systems, water and mud pumps and is able to perform any type of rotary and rotary-percussive drilling.

The MC 4 D is a hydraulic drilling rig with separate power pack, specifically designed for the execution of ground engineering works in confined or low ...

The MC 8D is a versatile and powerful hydraulic drilling rig, designed for civil engineering works such as micropiles, anchors and ground improvement in general through the use of all rotary ...

Comacchio Drill Rigs & Drilling Tools Hammer & Steel, Inc., sells and rents the Comacchio CH, MC, and MC-E Lines of drill rigs and drilling tools.

Comacchio Drilling and Pile Driving Rig Brochures The Comacchio drilling rigs are suitable for several types of specialized works including ground consolidation, anchor drilling, geotechnical ...

Roll-off system The MC 8D is a versatile and powerful hydraulic drilling rig, designed for civil engineering works such as micropiles, anchors and ground improvement in general through ...

Fully articulated drilling rigs in a weight range from 3 to 30 tonnes, offering incomparable versatility and high productivity. Thanks to the Comacchio patented mast articulation system, these ...

The MC 8D is a versatile and powerful hydraulic drilling rig, designed for ground engineering works in confined or low overhead spaces and difficult access jobsites, inside buildings, ...

Come tutte le macchine Comacchio, la MC 8D pu essere personalizzata in funzione delle speciÞche esigenze. The MC 8D is a versatile and powerful hydraulic drilling rig, designed for ...

Mc8d drill rig

The telescopic mast allows the use of drilling rods of different length without the application of mast extensions. The standard features of the MC 8D include ...

The Comacchio MC 8D is a compact drill rig with great versatility. This drill boasts 18,000 ft lbs of torque and 14" clamps. It can be also outfitted with a drifter for ...

Horizontal drill rigs are a specialized piece of drilling equipment known for their versatility, durability, and advanced technology, used extensively in applications ranging from ...

The Comacchio MC-28D is a versatile drilling rig designed for micropiles and anchors construction, boasting a reinforced undercarriage and adaptable mast ...

2024 Comacchio MC8D new Manufacturer: Comacchio Model: MC8D The MC 8D is a versatile and powerful hydraulic drilling rig, designed for civil engineering works such as micropiles, ...

The MC 8 is an extremely versatile and powerful small/medium size hydraulic drilling rig, designed for civil engineering works such as micropiles, anchors, ...

The MC 8D is a versatile and powerful hydraulic drilling rig, designed for civil engineering works such as micropiles, anchors and ground improvement in ...

The Comacchio MC-8D drilling rig is the ultimate limited access solution for executing micropile and anchor installations. The rig's versatility in handling ...

Mc8d drill rig
