

Mip18 massenza roto-percussion drilling rig

The MIP Series of Massenza rigs is designed to perform drilling works on slopes with inclination up to 45°. Thanks to the special design in fact both the mast and the machine body can fully ...

Rotary drilling rigs are among the most sought-after drilling tools in the modern-day industry, thanks to their extreme efficiency and versatility, ranging from ...

La perforatrice a roto-percussione MIP18 è finalizzata al campionamento del terreno, acque di falda e gas interstiziali, rivelandosi estremamente flessibile ...

Aquifer Drilling (ADT) provides environmental and geotechnical drilling for a variety of applications in the greater New York City area. ADT's experienced drilling crews operate a diverse drilling ...

The normal life of Massenza rigs is 35/40 years, with simple and appropriate maintenance and few spare parts. By choosing Massenza Drilling Rigs, our customers make a lifetime ...

DRILLING RIG Mi28 DESCRIPTION Drilling rig for water wells, mineral exploration, geothermal applications, coring, seismic, it is the most representative in the Massenza's production range ...

The MIP Series of Massenza rigs is designed to perform drilling works on slopes with inclination up to 45°. Thanks to the special design in fact both the mast ...

MI3 Massenza Drilling Rig is designed for working in rugged terrain and tough soil conditions for geotechnical and environmental drilling purposes. The rig is ...

The Massenza Mi3 is a robust and versatile drilling rig equipped for a wide range (including "Direct Push" and Split Spoon) of soil sampling and geotechnical ...

Terelion's patented RPS percussion tools provide unparalleled performance, versatility and reliability to virtually any rotary drilling environment. Designed ...

Innovation and versatility allow Massenza rigs for geotechnical applications to satisfy the requirements of such an active and diversified market: soil ...

The rotary-percussion rig MIP18 is designed for soil sampling, aquifer water and interstitial gas sampling. This is the complete and unique solution for insitu soil ...

Mip18 massenza roto-percussion drilling rig

MIP Massenza MIP Series Slope Climbing Machine slope climbing rig designed to meet new industrial requirements: Site investigation and specialist in situ testing services Installation of ...

Drilling Rig MIP in UK Meet the new Massenza MIP, currently at work in United Kingdom In this case the MIP drilling rig is used for the consolidation of river ...

MI3 Massenza Drilling Rig is designed for working in rugged terrain and tough soil conditions for geotechnical and environmental drilling purposes. The rig is designed for various drilling ...

Massenza è una azienda italiana specializzata in perforatrici per ricerche idriche, minerarie, geotecniche ed applicazioni geotermiche. Scopri di più:

UK drilling rig manufacturer Dando Drilling supplies hydraulic rotary and cable percussion rigs for the water well, mineral and geotechnical sectors.

The fact that it anchors itself to the slope means it can be left safety on the slope outside shift times The MIP18 has been proved on many site over the last 4 years.

Massenza Ris designs and manufactures custom water well drilling rigs and equipments for several fields of application and depths. Discover all the models.
