What is a Nabors rig?

Nabors is a leading provider of offshore platform workover and drilling rigs. Within the platform rig market, Nabors offers its innovative MASE and MODS (TM) rigs, the latter designed to withstand the wind and wave action associated with deepwater offshore drilling.

What is a Nabors MPD-ready rig?

Nabors MPD-Ready rigs feature integrated hardware and software components, and required flow paths, to ascertain the downhole pressure environment limits and manage annular hydraulic pressure during drilling operations. All equipment skids with rig, eliminating non-productive time when moving between wells for multi-well pad drilling.

What is a Nabors PACE-M800 rig?

Nabors PACE-M800 rig features innovative advanced technologies that provide both. When drilling laterals at or greater than 7,500 feet, the PACE-M800 rig's racking capacity eliminates the need to lay down drill pipe between wells on the same pad.

What size LWD imager does Nabors offer?

Nabors offers the FracView high-resolution LWD imager in 4.75 and 6.5in collar sizes covering borehole diameter ranges from 5.875 to 9.5 inches. FracView was the first commercially available LWD borehole imager demonstrated to operate in long horizontal wells drilled with oil-based mud.
