Where are alup air compressors made?

For power above 45 kW we offer ALUP air compressors, designed and manufactured in Europe. We installed Alup rotary screw air compressors at dozens of sites in New Zealand for food processing, at timber plants and other industrial sites.

What is a rotary screw compressor?

Rotary screw compressors are designed for a wide range of users across various industries and applications. They are powered by two counter-rotating screws that compress air as it moves through the compressor. These units are designed for continuous use, capable of operating 24 hours a day, 7 days a week.

Are screw compressors a good choice for your business?

Screw compressors are a reliable choice for businesses that need a steady, uninterrupted flow of compressed air. Thanks to their rotary screw technology, these machines operate efficiently and with low vibration--even during long hours of use.
