

Noble drilling rig romano

Will Noble Lloyd Noble drill at Valemon?

Noble Drilling Norway AS has been awarded a contract for drilling three wells at the Valemon field using the Noble Lloyd Noble drilling rig from the summer of 2021. The contract includes an option for drilling one extra well at the Valemon field.

What is the Noble Lloyd Noble drilling rig?

The Noble Lloyd Noble drilling rig is a drilling rig that has been awarded a contract for drilling three wells at the Valemon field from the summer of 2021.

What is Noble Drilling Company?

Noble Drilling Company is one of the largest offshore drilling contractors in the world today. It was spun off from Noble Affiliates in 1985 and has grown through a series of strategic acquisitions of offshore drilling assets. The Company's proactive style of management has guided it from a one-rig operation in 1921.

Why did Noble sell its cold-stacked rigs?

Noble explained in the report that the decision to dispose of the five cold-stacked rigs was based on the market outlook, the stacking costs, and potential reactivation costs. The company noted it is currently in various stages in the sales processes and is working towards closing the sale agreements as quickly as possible.
