

Offshore drilling rigs hiring factory

What is an offshore drilling rig job?

Offshore drilling rig jobs involve working on a crew to operate, maintain, or provide support operations on an oil and gas platform. Entry-level laborers, called roustabouts, clean and perform unskilled labor on an oil rig. Roughnecks are more-experienced deck-hands. These crew members work under a toolpusher (rig manager).

Are offshore oil rigs a good place to work?

Offshore oil rigs are an impressive place to work. And there are so many cool types of deep water drilling platforms to work on.

What jobs are available on the offshore rig team?

Depending on your background you could fit anywhere on the offshore rig team: Roustabout - A roustabout is responsible for cleaning, painting, and helping out with anything and everything at all times. Roughneck - This is the typical entry-level position where you must be a jack-of-all-trades.

How much does it cost to build an offshore oil rig?

Offshore oil rigs can cost nearly \$700 million to build. Each oil rig creates hundreds of jobs that are necessary to keep them running around the clock. With the current demand for oil, there is a new race to find new offshore oil fields and extract the precious black gold from the depths.

What jobs are in the offshore oil and gas industry?

Additionally, employers in the offshore oil and gas industry continually recruit for subsea and petroleum engineers, geoscientists, and other positions that require a high degree of training and education. Worldwide the oil industry faces an ongoing shortage of qualified workers. Now, these jobs are not child's play.
