

Oil drilling rig model accessories

What size oil rigs are available?

Sizes available are 26" (66cm) including base. These chrome and gold plated miniature oil rig models are made from solid stamped brass and is a very popular item with our customers. We offer these as an affordable economy version in place of our hand soldered derricks above.

What is an oil rig?

An oil rig is an enormous machine that is utilized for drilling profound openings in the earth with the goal that oil can be extracted. There are two types of oil rigs; on-shore and seaward oil rigs. An oil rig is quite often a gigantic, complex structure that can bore miles into the ground to get to the oil for oil and gas industries.

What is an MPR drill rig?

Whether it's a truck, loader, engine, top drive... every component of an MPR drill rig model, workover rig model or any other oil related model is built entirely from scratch. MPR drill rig models can be stationary or operational with moveable blocks, turning drill string and fluids circulation.

How tall are our oil field land drilling rigs?

Detailed Photos. Our oil field land drilling rig models stand 33" tall. Every single piece of these models is hand soldered then gold and chrome mirror finish plated with beautiful contrasting details.

What is a 19 inch scale drilling rig made of?

These 19" modern style scale drilling rig models are made from metal with every single piece being soldered together by hand. The elegant tall base provides plenty of room for large or multiple engravings. We use chrome and gold plating for the main structure.

What makes this miniature oil rig model derrick special?

A special feature is 54 precisely placed high intensity led lights which line both sides of this miniature oil derrick to produce a firestorm of brilliant reflections. We hand solder every single piece of metal on this gold plated oil rig model derrick.
