

Oil-free variable frequency screw air compressor company

What is oil-free screw air compressor?

In the industrial field that pursues high-quality compressed air, oil-free screw air compressors have gradually become the preferred solution. Compared with traditional oil compressors, oil-free screw air compressors are designed to avoid contact between lubricating oil and compressed air, thereby ensuring the purity of the output air.

Are ZR/ZT rotary screw air compressors oil-free?

The components of our ZR/ZT oil-free rotary screw air compressor range have been carefully designed in-house. This reduces losses and pressure drop to a minimum, resulting in the highest compressor package efficiency. Our oil-free compressors are also Class 0 certified, delivering the highest air purity at the lowest total cost of ownership.

What is a ZR 75-160 VSD+ oil-free rotary screw compressor?

Our ZR 75-160 VSD+ oil-free rotary screw compressor delivers high quality air to brew the perfect beer. Class 0 range of compressors, ISO 8573-1 class, you are sure to be working with minimum risk of contamination, unsafe products, or losses from operational downtime. Designed for high efficiency.

Why should you choose a rotary screw compressor?

Our oil-free compressors are also Class 0 certified, delivering the highest air purity at the lowest total cost of ownership. By using our rotary screw technologies you are guaranteed a reliable and efficient compressor. Over 80% of a compressor's lifecycle cost is taken up by the energy it consumes.

Why should you choose a screw air compressor?

This ensures that the outlet temperature of the air compressor remains below 55°C, even under continuous operation. This advanced cooling system enhances overall operational efficiency and ensures the equipment's long-term reliability. Pure oil-free and water-lubricated screw air compressor VS traditional dry oil-free screw air compressor

What is a Nirvana oil free compressor?

The two-stage Nirvana Oil-Free compressor offers: Fewer rotating parts than any other rotary air compressor in its class. Hybrid Permanent Magnet (HPM) motor has no bearings, thus raising the standard on compressor reliability to an unequalled level.
