

Orion drilling rigs

Where is Orion drilling rig made?

Orion fabricated the rig in-house at its Corpus Christi, Texas, facility. Building the rig in-house allowed the company to exercise more control over the rig components, the company stated. The 1,500-hp rig features 7,500-psi mud pumps, a walking system and bifuel engines. Orion Drilling Company completed its newest rig, the Aries, in May.

Who is Orion drilling company?

A LAND DRILLING company recently formed by an industry veteran has its first rig operating and plans are to build as many as three more in the near-term. Right out of the gate, the company's first rig set a drilling record. Orion Drilling Company was formed by Wayne Squires, the company's CEO.

Does Orion drill rig have a mud pump?

The 1,500-hp rig features 7,500-psi mud pumps, a walking system and bifuel engines. Orion Drilling Company completed its newest rig, the Aries, in May. The 1,500-hp AC rig, the ninth in Orion's Gemini series of onshore rigs and the company's 18th rig overall, is now working a long-term contract in Pennsylvania.

How did Orion drilling develop its first rig?

Orion Drilling immediately began designing its first rig with several equipment-to-good crews and electronic monitoring of the rig's operations to establish optimal drilling parameters. "The performance is a combination of rig design and the people," Mr Squires explained.

Will Orion drill a second rig?

Orion Drilling's second rig is under construction with the derrick being manufactured now. The rig, to be named Halley's Comet, will be a 1,500 hp unit and is scheduled for delivery in about six months.
