

## Pit viper 351 drill rig

The Pit Viper name has become synonymous with productivity in the mining industry, and the Pit Viper 351 drill rig is the Pit Viper that started it all. When it comes to drilling large holes in hard ...

The original Pit Viper - the PV-351 - offers 56.7 tonnes of bit load capacity, making it the most powerful drill rig in the Pit Viper range. While Epiroc can offer diesel and electric ...

The Pit Viper 351 is one of the most efficient rotary tricone drills available for drilling 10 5/8 in to 16 in (270 mm to 406 mm) diameter holes. The PV-351 can drill an angled or vertical clean hole ...

The drill, an Epiroc Pit Viper 351, is currently running successfully and achieving 30% increase in productivity compared to the manned equipment (190m day). ...

In fact, the Pit Viper 351 rotary drill rig weighs in excess of nine times that of Atlas Copco's largest DTH hammer drill rig, the ROC L8. Yet the Pit Viper 351 is drilling a hole that is generally only ...

Pit Viper 351 Atlas Copco offers the most comprehensive line of rotary blast hole drills in the industry. The Pit Viper-351 is a crawler mounted, hydraulic tophead drive, single pass rotary ...

A rotary head with powerful torque of up to 25.7 kNm (19,000 lb-ft), compressor capacity of up to 3,800 cfm of air, and 56,700 kg (125,000 lb) weight on bit, ...

The Pit Viper 351 blasthole drill from Atlas Copco offers powerful and productive large diameter rotary drilling down to depths of 65 feet in a single pass. It can ...

The Pit Viper that started it all Product description The Pit Viper name has become synonymous with productivity in the mining industry, and the Pit Viper 351 drill rig is the Pit Viper that ...

Rotary blast hole rigs Pit Viper PV-351 The most productive rotary tricone drill available for drilling 207mm to 406mm (10-5/8" to 16") holes with up to 19.8m ...

Designed for comfort With a 75,000 lb (34 tonnes) bit load capacity, the Pit Viper 271 can add unsurpassed productivity to your mining operations. The heavy and durable Pit Viper 271 can ...

The Pit Viper name has become synonymous with productivity in the mining industry, and the Pit Viper 351 drill rig is the Pit Viper that started it all. When it ...

In fact, the Pit Viper 351 rotary drill rig weighs in excess of nine times that of Atlas Copco's largest DTH

## Pit viper 351 drill rig

hammer drill rig, the ROC L8. Yet the Pit Viper 351 is ...

In his paper, Herman Krause refers to Australian iron ore mines with the RCS-based PV-271 blasthole rigs with AutoLevel and AutoDrill and the first Pit ...

El nombre Pit Viper se ha convertido en sinónimo de productividad en la industria minera, y Pit Viper 351 es el equipo de perforación Pit Viper con el que empezamos todo. Cuando se trata de ...

The Pit Viper Series 351 blasthole drill offers new applications and technological solutions. It can be used for single pass drilling of angled or vertical holes down to a depth of 65 ft (19.8 m), ...

The Pit Viper 351 blasthole drill can drill holes from 10 5/8 to 16 inches in diameter to a depth of 65 feet in a single pass. It has a powerful rotary head that ...

This order, for a fleet of autonomous Pit Viper 351 and Pit Viper 271 rigs, was valued at more than MUS\$ 30 (MSEK 305). Delivery of the ...
