In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of ...

When high-pressure air rushes into the pneumatic hammer through the connector, a part of the air's energy is transferred to the hammer piston. Then, the energized piston moves ...

DTH drilling, also known as Down-the-Hole drilling, is a method used to drill boreholes into the earth's surface. This technique involves a hammer that is ...

In down-the-hole drilling a drill rod is fitted with a hammer at its lower end. The hammer, which is mounted on the drill bit, is activated through the addition of compressed air and driven into the ...

Whether you need to drill through hard rock formations or softer materials, our DTH Drill Bits are engineered for unmatched performance, precision, and ...

By forcing a medium, such as compressed air or water, down the drill string and out through these holes, the drill bit clears the cuttings and prevents several common issues: ...

This study proposes a novel structure of self-rotating pneumatic hammer (NSH) with a built-in rotational mechanism, which converts partial impact energy of the piston to rotate the ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

Pneumatic drills, often known as air drills, are powerful tools driven by compressed air. They are characterized by their mechanical simplicity, reliability, and high power-to-weight ...

Air-flushed drilling with top hammers began in the mining industry in Sweden in 1873, while down-the-hole (DTH) drills, again with air flush (and activation) became operational in 1950. During ...

Center Rock offers the most complete line of dth hammers, drills, and bits which are designed for peak performance in all rock drilling applications.

When drilling, selecting the right speed is essential for ensuring precision, avoiding damage, and maximizing tool lifespan. Whether you're ...
