

Precision drilling rig 110

What is a LM110 drill rig?

The LM110 was designed as a modular drill rig with a number of options for site-specific customization. This drill is easy to use and upgrade to meet the needs of future drilling projects. An optional patented rod handler can be added to the LM110, which greatly increases driller safety.

What is a precision Super single rig?

The Precision Super Single has the lowest load count of our fleet and is a lightning-fast mover. A pad walking Super Single version is available. The walking system utilizes our unique umbilical connection system allowing the rig to move from well to well quickly with virtually no moving equipment.

What is the Erebus 110 underground diamond core drill rig?

Discover the Erebus 110 Underground Diamond Core Drill Rig, designed for precision, durability, and efficiency in underground drilling operations.

How has digital drilling technology changed rig automation?

Digital drilling technologies have made drilling faster, more consistent and safer than ever. Discover Rig Automation additions for the Precision Super Single: Precision's High Performance XY moving system travels up to 300 feet in any direction without disconnecting from the backyard complex.

Is the LM110 a good drill?

This drill is easy to use and upgrade to meet the needs of future drilling projects. An optional patented rod handler can be added to the LM110, which greatly increases driller safety. The rod handler makes loading rods easier and ensures drillers remain away from moving parts during rod tripping.

What makes a drilling program successful?

Ensuring the success of your drilling program means having the right technology, operational support systems and personnel in place to get the job done safely and efficiently. This is what Precision defines as High Performance, High Value.
