

Price of rock drills in China

What is the rock drilling machine for sale?

The rock drilling machine for sale in Henan YG Machinery Co.,Ltd is a kind of high-efficiency rock drilling equipment,which can be widely used in rock tunneling and drilling blast holes in various rock operations and is an important rock drilling tool in the construction of mines,railways,transportation,and water conservancy works.

What are the different types of rock drilling machines?

According to its power, rock drilling machines can be divided into pneumatic rock drilling machines, air rock drilling, electric rock drilling machine, and gasoline rock drilling machine. Different models have their own unique advantages, you can choose the suitable model according to your requirements.

What are rock drilling tools?

Rock drilling tools are essential in mining for various tasks, including exploration, production, tunneling, and ground support. They range from Top hammer drilling tools and DTH drilling tools for drilling, to self-drilling anchor tools for stabilizing structures.

How does rock drilling equipment work?

The rock drilling equipment works according to the principle of impact crushing. When it works,the piston makes a high-frequency reciprocating motion and continuously impacts the bit tail. Under the action of the impact force,the wedge-shaped drill head crushes the rock and chisels it into a certain depth to form a dent.
