

Production drill rigs

Production Master 2.3 is a self-propelled long-hole drilling rig designed for drilling parallel upholes and downholes as well as fans and rings in vertical or inclined ...

These drills eliminate the need for explosives, which in turn eliminates the need for time-consuming ventilation and evacuation measures while promoting a ...

DRILLING Our blast hole, grade control and pre-split drilling services are delivered consistently, accurately and efficiently and will reduce your overall production cost.

Experience advanced longhole drilling with the Sandvik DL422i rig - a drill engineered for precision and productivity in underground mining operations.

DL long-hole drilling rigs are a kind of mining hydraulic drilling rig in underground mines project. Our production drill rig is mainly used for drilling blast holes of ...

Epiroc's drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

Our drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and ...

The different mast and carousel configurations for production drilling or service hole applications make this in-the-hole production drill highly flexible and ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground ...

Sandvik DU411 is a center-articulated, carrier-mounted in-the-hole (ITH) drill that provides highly accurate drilling and enhances profitability with the lowest cost per ton. It can drill service ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling.

Epiroc is one of the leading drill rig manufacturers in the world. We offer rock drilling machines and other equipment for many different applications. For ...

SMW owns and operates Terex Reedrill, Sandvik and Epiroc (Atlas Copco) drill rigs. Our inhouse

Production drill rigs

engineering capability ensures our machines are maintained to the very highest standards for ...

We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed lengths, boom configurations and size classes, our underground ...

The Drilling Productivity Report (DPR) rig productivity metric new-well oil/natural gas production per rig can become unstable during periods of rapid decreases or increases in the number of ...

Epiroc's Simba long-hole drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling. Designed to ...

Our drilling rigs offer a variety of feed lengths, positioning configurations, rock drills, and optional automated features for underground production drilling and blast hole drilling in mining and ...

The drilling rig performs a central function in oil operations, serving as the mechanical spine of each and every profitable exploration and ...

Simba E70 S Production drill rig for medium to large sized drifts with a hole range of 51 to 178 mm
Utilization and effectiveness Excellent drilling quality Safety ...

Whether you're developing a decline, drilling to break up ore or installing rock support, we engineer an extensive range of mining and surface equipment for mining development and ...
