

## Rhino 1300 drill rig

What is a rhino rig?

Rhino Rig, an affordable, portable, durable, and easy-to-use water well drilling rig designed for nonprofits and farmers. Buy once, drill forever.

How much does a rhino rig cost?

The Rhino Rig is built for ease of use and safety, making it easy to operate in remote areas, developing countries, or by a small team on a farm. Instead of paying thousands for each well, invest in a Rhino Rig once and drill forever. Less than a 1/10th the price of a standard well drilling machine, Rhino Rig cost \$100,000. Those who need it.

What is a rhino integrated borehole enlargement system?

Rhino integrated borehole enlargement system The rugged, precision-engineered Rhino(TM) integrated borehole enlargement system comprises a family of hydraulically actuated reamers that save rig time and bring production online faster. Rhino system reamers deliver high-quality, concentric boreholes for close-tolerance and expandable-casing programs.

How does a dual underreamer Rhino system work?

Dual-underreamer Rhino systems facilitate rathole elimination by enlarging the borehole to the top of the directional tool or bit in one run. A passive near-bit reamer is activated at TD, enlarging the rathole while drilling. This eliminates the need for a dedicated rathole cleanout run, which can add 24 hours or more to well construction.

Used Rhino construction for sale in Mpumalanga, South Africa. Find used excavators, dozers, forklifts, compactors, backhoe loaders, cranes, lifts, skid steer loaders and other types of ...

Raising Australia owns seven low profile specialist raise bore drilling rigs and a fleet of mobile box hole borers. This diversity allows us to offer a broad range ...

3 spindles perform routing operations and ensure rapid drilling of holes The Rhino has 3 drill heads, at the top, bottom and front of the machine, working simultaneously.

The arrival of the Rhino 100 mobile raise borer has proved a game changer for underground contractor Raising Australia, part of the Byrncut Group.

After working with TRB to tweak the borer to allow for additional drilling angles, Raising Australia took delivery of its first Rhino in September ...
