

Rigid impact drill review

What is the RIDGID drill & impact Driver Kit?

Ridgid is a company that stands behind their products, with one of the best warranties and LSA's in the business. The Ridgid Drill and Impact Driver Kit comes with a Drill, Impact Driver, two 1.5 Ah 18V batteries, a charger and a carrying case. Both tools feature Ridgid's brushless motor technology for increased runtime and extended tool life.

Should I buy Ridgid impact driver?

Impact driver has an industry leading 2,250 in.-lbs. of torque I have to give the win to Ridgid on a couple accounts. First, the price. The two brands are so close in specs - the \$70 price difference seems like a huge gap. Second - and this is a big one - Ridgid's lifetime warranty! You just can't beat it. Free batteries and service for LIFE?!

Is Ridgid better than DeWalt?

Win for Ridgid. While the DeWalt and Ridgid Brushless Drill/Driver and Impact Driver Combo Kits are extremely comparable - their specs are nearly identical in power, speed, handling, and performance - there's a \$70 price difference between the two brands.

What is the difference between Ridgid drill & drill?

Both tools feature Ridgid's brushless motor technology for increased runtime and extended tool life. The Drill has a two-speed gear train. The first gear or low speed allows for higher power and torque, and the second gear or high speed is best for fast drilling and driving. The Drill also has adjustable torque settings.

What is a Ridgid 18V high-torque impact wrench?

What we love about the Ridgid 18V high-torque impact wrench is that it takes over the next step as the mid-torque reaches its limits without leaving a big gap in between. With the same basic feature set, these two impacts are made to complement one another and cover a wide range of work.

Is the impact driver a good tool?

The Impact Driver is a breeze to change bits on and has a slightly more compact build which I like. The grip and comfort of both tools are great, but the Impact Driver stands out as far as overall comfort. The Impact Driver feels powerful during use but is still smooth, not pully like some can be.

For this generation, Ridgid's brushless mid-torque impact wrench sports 500 ft-lbs of fastening torque and 650 ft-lbs of nut-busting torque. The ...
