

Rigo reyes parker drilling

Where is Parker Drilling rigs located?

Tulsa, Oklahoma 74103-3637 U.S.A. Founded in 1934, Parker is a pioneer in the contract drilling industry. Parker's engineers and designers have introduced many innovations, such as light weight, high capacity hydraulics for drilling rigs, rapid rig-moving systems and helicopter-transportable rig technology.

What happened to Parker Drilling?

Mallard, Quail, and Hercules, as subsidiaries of Parker Drilling, increased not only the size of the company, but also the percentage of its revenue generated domestically and made the company's U.S. operations more profitable. The sudden upswing, however, was followed by just as abrupt a downturn.

Who is Parker Drilling Company?

Parker Drilling Company has become the dominant operator in the heli-rig market, operating 80 percent of all rigs transportable by helicopter to otherwise inaccessible desert, jungle, and mountain locations. It is also a specialist in deep well, arctic, and geothermal drilling. A Company Committed to Innovation Since 1934
