

Robotic drilling rig

The rig would "think" for itself, doing its positioning, erecting steel reinforcements, and drilling a well without human interference. Robots : Your Partner in ...

The world's first fully automated land drilling rig, R801 is a purpose-built proving ground and launchpad for drilling automation. Nabors ...

The future of drilling has received a reboot with the introduction of an innovative autonomous robotic drilling rig for unmanned land, offshore and deepwater drilling operations. ...

Drawing on the industry's largest portfolio of automated drilling applications, Baker Hughes i-Trak services will make your well construction operations more efficient, accurate and consistent. ...

Nabors Industries Ltd. has announced its PACE ®-R801 - the world's first fully automated land drilling rig - has reached total depth on its ...

Fully-automated handling robots for oil and gas drilling rigs Drilling for oil and gas is still one of the most adventurous businesses of our times. But it is a risky business not only in financial terms, ...

Leading the industry in rig automation, our control systems seamlessly integrate drilling equipment, improve performance, and boost drilling efficiency.

Robotic Drilling Systems (RDS) has a proud history forming from Seabed Rig A/S, a company that first began in 2005 developing a drilling rig to be submerged at the seabed for ...

Modular System for the Deployment of Exploration Drilling Rigs and Measurement Systems, Leveraging Existing Robotic Solutions The Next ...

Nabors Industries Ltd. (NYSE: NBR), a leading provider of advanced technology for the global energy industry, today announced its PACE®-R801 - the world's first fully automated land ...

What is a Robotic Drilling Rig? A robotic drilling rig is an advanced system that utilizes robotics and automation technology to perform various drilling tasks that were ...

Exploration drilling technology is therefore considered ripe for innovation, with numerous companies - from start-ups to stalwarts - vying to bring increased automation to the ...

Whether it's a plane wing, an offshore rig, or a microchip casing, robot drilling is making holes where humans

Robotic drilling rig

fear to tread -- the kind of real-world impact that ...

This trend can also be observed on oil rigs: The start-up company RDS Robotic Drilling Systems AS in Stavanger, Norway - a center of the European oil industry - develops robots with the ...

2024 Drilling Rigs & Automation Features Innovating While Drilling; Safety and ESG September/October Automation, robotics and ...

Automated drilling rigs are the result of integrating several advanced technologies that work in unison to optimize performance, improve ...

Great flaws remain in the capabilities and availability of rig crews on a global scale, keeping automated drilling a necessity for the near future. A small group of early adopters and ...

In an industry first for a land drilling rig, ExxonMobil XOM 0.0% subsidiary XTO Energy and Nabors Drilling have reached total depth on the ...

Fully automate any AC rig's drill floor to remove crews from red zone areas and deliver consistent outperformance with the Canrig; RZR rig floor.

The AutoMine; Concept Underground Drill is a fully autonomous, twin-boom development drill rig capable of drilling without human interaction. The cabinless battery-electric drill can plan and ...

Nabors PACE;-R801 combines our Smart Suite of automated drilling software with Canrig robotics, creating an unmanned rig floor that removes crews from red zone areas and delivers consistent ...

Pace-R801, which was built in Houston, uses a combination of robotic hardware and automated software to drill a well. A blue robotic arm, ...

Introduction: The Future of Autonomous Drilling rigs in Mineral Exploration As the global demand for minerals intensifies, driven by technological advancements and renewable ...

LOGIX(TM) drilling performance offers an integrated autonomous drilling solution that drills smart wells consistently, with accurate well-positioning, and superior ...

Greater efficiency and less downtime for onshore drilling The Precise(TM) automated drilling system gives you full control over your rig's functions from ...

Nabors Industries Ltd. unveiled a fully automated land rig on Nov. 16 with a "first-of-its-kind robotics module," marking a major industry ...

Robotic drilling rig

This solution orchestrates autonomous directional drilling with automated wellbore hydraulics and dynamic surface drilling rig equipment ...
