

These machines are mainly used in geological prospecting, exploration of railway and highway engineering, mining, SPT, water well, geothermal well etc. Some of them won the Scientific ...

Description Flushing is needed on a drill rig for removing the cutting generated by the drill bits. A proper removal of cuttings is one key parameter for maximized ...

The unit is also equipped with a check valve to prevent high pressure air from feeding back into the system. The volume of water injected into the air stream by the WI-100 can be adjusted ...

The hole bottom water injection variable-pick multifunctional rock-piercing drill of the rotary digging pile machine has the advantages that the temperature of the drill pick can be kept normal, the ...

The hole bottom water injection variable-pick multifunctional rock-piercing drill of the rotary digging pile machine has the advantages that the temperature of the ...

The LS400T+ Water Well Drill is the largest in the Lone Star line, boasting a 400-foot drilling depth. The drill's hydraulic system features pull-back force of up to 15,000-pounds and push ...

In case of "stacking" or cracking of the drill tail, replace it in time according to the situation. (3) Supply air or water to the water needle of the rock drill and observe whether it is ...

Keystone Drill is a distributor and manufacturer of air manifold, lubricator, and water injection platforms for the oil and gas field, construction field and mining ...

Rock drill spare parts water injection valve offered by China manufacturer Quzhou Zhongdu Machinery Technology Co., Ltd. Buy drilling tools directly with low ...

28 Rock drill water injection valve body Tianshui Kaishan wind drill and equipped with complete drill bit drill pipe quality assurance on sale, buy cheap 28 Rock drill water injection valve body ...

Troubleshooting air-leg rock drills(2) Elimination measures: First, adjust the pipeline to eliminate air leakage, increase the diameter of the air supply pipe, and reduce the gas consumption ...

YT29A (Air-leg)rock drill YT29A air-legged rock drills are heavy-duty push-leg (air-legged) rock drills with low energy consumption, which are more suitable for drilling horizontal or inclined ...

Fault 3: Failure of the gas-water linkage mechanism (1) Causes of failure: First, the water pressure is too high;

Rock drill water injection valve

second, the gas circuit or water circuit is blocked; third, the parts in the ...
