

Rock drilling rig boom

Sandvik DD211L is an electro-hydraulic development drill engineered for excavations with headroom as low as 2 meters (6.5 ft). It has a robust ...

Drill Jumbos Series Product Our advanced underground drilling jumbo products are engineered for precision and efficiency in mining tunnels. Equipped with ...

The robust universal boom has a large optimum shaped coverage, 360° rotation and full automatic parallelism for fast and easy face drilling. The boom can also be used for cross ...

The Sandvik DT820 is a powerful and versatile jumbo mining drill rig that is designed for use in a wide range of underground mining applications. With its ergonomic design and advanced ...

The Boomer 282 available from Atlas Copco is a twin-boom hydraulic face drilling rig designed for small to medium sized tunnels and for mine production with ...

Boomer 282 is a world popular face drilling rig installed with two robust BUT booms and available with a variety of rock drills. Stable and highly efficient performance makes it your first choice ...

The Sandvik DT820 is a powerful and versatile jumbo mining drill rig that is designed for use in a wide range of underground mining applications. With its ...

DW3-180 three-boom drill jumbo is specially developed and manufactured for tunnels of high-speed railway, water conservancy and hydropower projects, ...

The underground jumbo drill rigs from Epiroc are used for blast hole drilling in underground mining and tunneling. The rigs are equipped with up to four ...

The underground jumbo drill rigs from Epiroc are used for blast hole drilling in underground mining and tunneling. The rigs are equipped with up to four booms, covering cross sections from 6 m ...

Tunneling Multi boom Rock Drill ZEGA UJ22 is a full-hydraulic drilling rig for the construction of medium and large tunnels such as roads and railways. The drill ...

SITON is a professional manufacturer and supplier of jumbo drill machines in China. Double boom jumbo is a kind of two boom underground drilling jumbo machine typically used in tunneling ...

Looking forward to buying best-in-class mining drills in Canada? Visit [here](#). We deal in a huge range of air

Rock drilling rig boom

track drills, diamond core drills, drill jumbos, etc.

The Boomer S10 face drilling rig is engineered for demanding mining and tunneling applications. Its highly durable design ensures precise positioning, rapid drilling cycles and reliable ...

The drill rig is equipped with a comfortable, ROPS & FOPS approved cabin and efficient feed design with extendable boom gives excellent flexibility for ...

4 days ago; Custom built in 2011, late model, 4G certified, built for purpose, small footprint, rapid mobilization- from arrival of first load at location to ...

DD series mining development drill rigs are a kind of mining hydraulic drilling rigs in underground mines project. This blast hole drilling machine is equipped with a high-power rock drill, the rock ...

The "All Star" two-boom rig Boomer 282 is a world popular face drilling rig installed with two robust BUT 28 booms and available with a variety of rock drills. Stable and highly efficient ...

Tunnel Multi boom Rock Rig ZEGA UP31B has four-wheel drive and articulated chassis that is suitable for a variety of small and medium-sized tunnels, using ...

TECHNICAL SPECIFICATION Sandvik DT1331i is a computer-controlled three boom electro-hydraulic jumbo for fast and accurate drilling in tunneling and cavern excavations. Drill rig has ...

Gill Rock Drill appointed new distributor of Sandvik Mining and Rock Technology boom drills for New Jersey, and counties of Maryland, Virginia and Eastern ...

A jumbo drill, also known as a drilling jumbo, is often a rock drilling rig. It can be used for jumbo drill mining. Drilling jumbos in deep mines are ...

Reloaded to meet your conditions The Boomer M-series face drilling rigs become a key piece of equipment for and tunneling applications. As part of our commitment to continuous ...

DD series mining development drill rigs are a kind of mining hydraulic drilling rigs in underground mines project. This blast hole drilling machine is equipped with ...

Face drilling rigs, commonly called "drill jumbo", are large, single or multi-boom machines used in underground hard-rock mines. Booms typically have six control axes to position and orient ...

A patented semi-automatic drill bit changer: the bits are changed from a safe location, enhancing productivity and reducing the risk of personnel exposure to hazardous ground conditions. Our ...
