

Rod handler drill rig

Where to Find Them Our Bohrmeister drilling rigs and drilling equipment are manufactured with German parts and precision. This ensures a world-class, rugged product ...

A robotic drill rod handling system can cut the number of employees needed for each machine while protecting against potential danger ...

This combined with a 180° jaw roll function, 100° slew and 270° of tilting action - including 3m height adjustment - make this the most flexible rod handling ...

VERSA-DRILL's automated rod handling system revolutionizes the drilling process by enhancing efficiency and safety. Designed to reduce manual labor and impro...

Securely lift, tilt, shift, rotate and precisely position or torque a single rod or drill string with DECKHAND® and TONGHAND® rod handler. Technologically ...

OTTO is available on all of DeepRock's 10 foot rigs OTTO moves over to pick up a drill rod The OTTO automatic drill rod loader is controlled by one easy to operate control A DR150 Rig with ...

You get regular drilling rigs, and then you get Bohrmeister drilling rigs! We specialise in the custom design, manufacture and supply of quality hydraulic exploration drilling rigs, "hands ...

date Mast Rod Tray Required if rod handler is fitted Fitted into the mast, this supports the drill rod to facilitate alignment during make/break actions while ...

The Christensen Rod Handling System (RHS) is available as an option for both the Christensen CT20 and Christensen 140 surface core drilling rigs.

Fully electronic interface that allows one operator to control both the drill rig and the rod handler, providing real-time feedback on drilling conditions.

EDM's range of Rod Handlers and Diamond Rod Feeders have been designed to work with any drill rig, greatly reducing or eliminating manual rod handling ...

Innovative rod handler excavator attachments for horizontal directional drilling include TONGHAND® and DECKHAND®; by LaValley Industries.

AVD was the first Canadian drill rig manufacturer to patent a rod handling solution in the 1980s. Since then,

Rod handler drill rig

the product has continued to evolve. The AVD rod handlers utilizes UHMW wear ...

The Christensen Rod Handling System (RHS) is available as an option for both the Christensen CT20 and Christensen 140 surface core drilling rigs. Safety is always a top concern.

Rods are loaded in the same optimal horizontal position and height regardless of drilling angle. Enable detection of drill rod, ensuring safe loading position. The ...

Rod by rod Longer drilling rods are increasingly being used to achieve higher drilling performance. These are heavy and bulky, which means they have to be handled by machines. KLEMM ...

It handles the feeding and retrieving of rods and casing between the DRS and drill rig, completely hands-free. Handles rods, casing and core barrels, and also manipulates the kelly rod, by ...

Standard Rod Handler EDM/KL Style RC 6m Rod Handler Direct hydraulic actuation from rod handler console Remote control option 4", 4.5" Diameter (Optional 5.5") Rod Handling Capability

RodBot, created by MEDATech's Borterra drilling division, is a hydraulic, robotic pipe handler for loading and unloading drill rods and casing ...

X350 is a self-contained rig; its design includes a side-loading rod bin withholding capacity 25 x 6m 4.5" rods, KL rod handler for added safety, can be switched with a 48m (8 x 6m) rod ...

This is why Epiroc has developed the Rod Handling System (RHS). The Christensen RHS enables hands-free rod tripping throughout the drilling cycle. This means there is no need to ...

An optional patented rod handler can be added to the LM110, which greatly increases driller safety. The rod handler makes loading rods easier and ensures drillers remain away from ...

The Diamec Smart 8 can also be equipped with a unique rod handling system that offers complete hands-free rod handling. Adding and removing of drill rods, inner tubes, and core barrels are ...

This is the new AVD InnerTube & Rod handler Less strain on the workers, thanks to mechanical handling of the rods and the inner tube. Features: Rod spinner do d...

Pipe handler for precise placement of drill rod on rigs, racks or trucks. Control system and In-Cab display allows you to torque pipe joints to your specified ...

Longer drilling rods are increasingly being used to achieve higher drilling performance. These are heavy and bulky, which means they have to be handled by machines.

Rod handler drill rig

Four broad types of hands-free rod handling systems Mast carousel system This system utilises a carousel which is mounted onto the ...
