

Sandvik drilling rig

Explore the precision and efficiency of the Sandvik DD422iE electric drill rig, a top-notch solution for development drill rigs in mining operations.

SANDVIK DD210L UNDERGROUND DRILL RIG TECHNICAL SPECIFICATION Sandvik DD210L is a low profile single boom electro hydraulic drilling machine designed to work in excavations ...

Sandvik DL321 is a versatile longhole drill rig engineered for small-and medium-scale production drilling in underground mines. It is designed for vertical and ...

We engineer an extensive range of underground drill rigs for mining development and production. Available in a variety of feed lengths, boom configurations and size classes, our underground ...

Ranger(TM) DX800 ensures stability thanks to its counterweight solution, which allows for steady operation in the toughest conditions. Operating manuals and spare parts can be found on the ...

Unlock versatility in development drilling with the Sandvik DD210 drill rig. This versatile rig combines reliability and adaptability for various mining needs.

Leopard(TM) DI550 diesel-powered, down-the-hole (DTH) drill has enhanced mobility, a smaller footprint and can serve multiple sites. Designed for DTH blasthole drilling in mining, quarry and ...

Sandvik D45KS drills holes down to a maximum depth of 63 meters (206.69 ft) and is designed for coal, gold and iron ore mining. It prioritizes easy ...

Discover the power and versatility of drilling rig for resource extraction, mining, construction, and scientific research. From oil and gas..?

Sandvik headquarters is located in Tampere, Finland, and the long history with Avesco has led to Sandvik choosing over 10,000 Cat engines from across the ...

Sandvik has received its largest ever order for surface drill rigs, valued at SEK 248 million. The order from U.S.-based Sandvik dealer Country Boy Supply, LLC was booked in ...

DR412i blasthole drill is designed to deliver dependable penetration and greater return on investment for rotary and DTH holes. From onboard automation that ...

Sandvik DL421 is a versatile longhole drill rig engineered for large-scale production drilling in underground

Sandvik drilling rig

mines. It is designed for vertical and ...

Sandvik headquarters is located in Tampere, Finland, and the long history with Avesco has led to Sandvik choosing over 10,000 Cat engines from across the power range for its equipment. ...

Sandvik DR416i blasthole drill rig delivers a single-pass capacity of 21 meters (69 ft), the longest in its class along with a maximum depth of 42.4 meters (139ft) ...

A remotely radio-controlled hydraulic, crawler-based surface drilling unit, Dino(TM) DC420Ri is designed for drilling 51 to 76 mm (2 to 3 in.) hole sizes. It provides ...

Sandvik 365 Parts & Services offer a variety of possibilities to enhance your Sandvik DD422iE drill's performance. As an OEM, we provide the best-suited choices to preserve your ...

The Sandvik Leopard DI650i is a down-the-hole drilling rig, diesel-powered and self-contained, designed for high-capacity drilling applications in surface mining.

Exploration Drill Rigs Sandvik offers a wide range of exploration drill rigs for surface and underground exploration drilling. The exploration drilling equipment ranges from lightweight ...

Typical applications for Ranger DX800 are road cutting, pipe-line drilling and foundation drilling, as well as production drilling in medium size quarries. Therefore Ranger DX800 is most often ...

Experience efficient underground drilling with the DD322i drill rig by Sandvik. This advanced drill rig combines technology and performance for optimal mining ...

Our full selection of mining and surface equipment for rock drilling, crushing and screening, loading, tunneling, quarrying, breaking and demolition.

The D50KX rotary/DTH blasthole drill features digitally driven enhanced productivity with features like high-precision TIM3D GPS navigation and the ...

Intelligent rigs. Impressive results How do Sandvik iSeries drills deliver verifiable customer value using intelligent drilling technology? Learn how as Craig Hall, ...

Sandvik Rental Services offers a wide range of Surface drill rigs, such as top hammer and down-the-hole drill rigs. Sandvik intelligent surface drill rigs bring the latest technology to surface ...

Our offering of equipment and tools, service and technical solutions for mining and rock excavation covers rock drilling, rock cutting, crushing and screening, ...

Sandvik drilling rig

The DE880 is the most powerful drill rig within the Sandvik range of exploration drill rigs. It has the greatest depth capacity when core drilling due to its large main winch and wireline winch.

Leading drilling rig manufacturers such as Epiroc, Atlas Copco, Sandvik, and Fraste each have distinctive strengths in operational depth and ...

Our intelligent rotary drill rigs bring the latest technology to surface mining applications. Designed to work in the toughest operating conditions, our rotary blasthole drill rigs combine power with ...

Intelligent development drilling with Sandvik DD312i - a cutting-edge- drill delivering high performance and advanced technology for underground mining.

Sandvik drill rigs feature a durable and long-lasting construction reinforced with high-performance materials. These machines offer ideal solutions for industrial ...
