

Sandvik drilling

Each drill body size is individually optimized and offers unprecedented stiffness to ensure high process security, repeatability, consistent quality and good run-out accuracy. Twisted coolant ...

Our full selection of mining and surface equipment for rock drilling, crushing and screening, loading, tunneling, quarrying, breaking and demolition.

SANDVIK D55SP The D55SP comes with low-pressure air for rotary drilling or high-pressure air for down-the-hole (DTH) drilling. The drill excels in single pass drilling, where productivity ...

Looking for Sandvik Coromant's ordering catalogue? This is divided into three volumes: Turning Tools, Rotating Tools (including milling tools and drilling tools) and Solid ...

Our offering of equipment and tools, service and technical solutions for mining and rock excavation covers rock drilling, rock cutting, crushing and screening, ...

Part of global industrial engineering group Sandvik, Sandvik Coromant is at the forefront of manufacturing tools, machining solutions and knowledge that drive industry standards and ...

Exploration Drill Rigs Sandvik offers a wide range of exploration drill rigs for surface and underground exploration drilling. The exploration drilling equipment ranges from lightweight ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...

Sandvik offers a range of market-leading and high-performing Rotary Drilling Tools for mining blast holes, whether you need a single bit or a complete drill ...

Whether you need to excavate, transport or process ore, rock or overburden more efficiently, our comprehensive range of cutting-edge surface and underground mining equipment is designed ...

Typical applications for DX900i are road cutting, pipe-line drilling and foundation drilling, as well as production drilling in medium size quarries. Therefore DX900i is most often used by ...

Ranger(TM) DX800 is a hydraulic, diesel-powered, self-propelled top hammer drill rig with an ergonomic cabin and rod handling system. Typical applications are ...

TECHNICAL SPECIFICATION Sandvik DU311 is a highly versatile and compact ITH longhole drill fitted

Sandvik drilling

with an onboard booster and designed for underground mining in 4 x 4 m or larger ...

Sandvik DD312i is an advanced single boom development drill for underground mine development and small scale tunneling. It features a compact carrier and ...

DR412i blasthole drill is designed to deliver dependable penetration and greater return on investment for rotary and DTH holes. From onboard automation that ...

Sandvik 365 Parts & Services offer a variety of possibilities to enhance your Sandvik DD422iE drill's performance. As an OEM, we provide the best-suited choices to preserve your ...

Traxxon is a leading supplier of surface drill rigs from Sandvik in Canada, providing precision rock drilling equipment for challenging applications.

With a complete range of equipment and tools, services and technical solutions, we help the mining and infrastructure industries increase efficiency, cut costs ...

For efficient Down-The-Hole (DTH) drilling, you need high performing drilling tools. Tools that increase your productivity and sustainability, while reducing your total operation cost and ...
