

Sandvik dt1132i

What is Sandvik dt1132i Jumbo?

Sandvik Mining and Rock Technology has launched its latest development for tunneling excavation, the DT1132i jumbo. The new Sandvik DT1132i tunneling jumbo itself is a three-boom, electro-hydraulic jumbo that has been purpose-designed for fast and accurate drilling in tunneling and cavern excavation.

What is a dt1132i tunneling Jumbo?

The new Sandvik DT1132i tunneling jumbo itself is a three-boom, electro-hydraulic jumbo that has been purpose-designed for fast and accurate drilling in tunneling and cavern excavation. The computer-controlled rig possesses both operator-controlled boom positioning and full-face automatic drilling functions.

Does the Sandvik dt1132i come with a rd535 Rock Drill?

For face drilling, the DT1132i comes with the new Sandvik Alpha 360 drilling system for the RD535 rock drill. This delivers features such as an optimized rod diameter with increased flushing hole size, increased flushing and higher penetration rates, as well as a new Sandvik Alpha 360 connection.

What features does the dt1132i offer?

The DT1132i is available with some of the latest developments in automation, including a SICA control system for intelligent torque control/feed percussion, with monitoring and fleet management for My Sandvik. To further improve the excavation process, remote access via WLAN can be chosen which allows web-based data transfer as well as online MWD.

What is the difference between rd535 and dt1132i?

The RD535 rock drill, automated drilling features and new rock tools mean that the DT1132i delivers the results required, but with 40 % less exhaust particles, up to 20 % higher penetration rate and with 25 % more side coverage.

SRV:lle toimitettu Sandvik DT1132i on täysin automatisoitu tunnelijumbo, jossa on kolme sähköhydraulista porauspuomia. Laitteessa on monia uusia päivityksiä, kuten tehokkaat ...

TECHNICAL SPECIFICATION Sandvik DT1132i is fully automated i-series electro-hydraulic tunneling jumbo with three booms for fast and accurate drilling in tunneling and cavern ...

Sandvik Mining and Rock Technology has launched its latest development for tunneling excavation, the DT1132i jumbo. The new Sandvik DT1132i tunneling ...

Sandvik Mining and Rock Technology has announced the launch of the brand new DT1132i jumbo underground drill rig, its latest vehicle for ...

Sandvik dt1132i

Sandvik Mining and Rock Technology har lansert sin nyeste utvikling for tunnelrigg for utgraving av tunneler, den splitter nye Sandvik DT1132i jumbo. Denne store og svært ...

Sandvik Mining and Rock Technology launched the DT1132i three-boom, electrohydraulic jumbo for tunneling and cavern excavation. The drill is ...

Sandvik Mining and Rock Technology präsentiert seine neueste Entwicklung für den Tunnelvortrieb, den brandneuen Sandvik DT1132i Tunnel-Jumbo. Dieser große und extrem ...

The DT1132i three-boom, electro-hydraulic jumbo has been designed for fast and accurate drilling in tunnelling and cavern excavation. This computer-controlled underground rig possesses both ...

Sandvik DT1132i is a fully automated i-series tunneling jumbo with three electro-hydraulic booms for fast and accurate drilling in tunneling and cavern ...

Sandvik DT1132i är en helautomatisk borrhög för tunneldrivning med tre elektrohydrauliska bommar. DT1132i är utrustad med Sandviks kraftfulla bormaskin RD535 och minskar ...

DT1132i TUNNELING DRILL TECHNICAL SPECIFICATION and cavern excavations. Sandvik DT1132i is equipped with new RD535 rock drills which give 25% more drilling power compared ...

In case of weak ground conditions, Sandvik DT1132i can be equipped with the AT - Pipe Umbrella to install pipes, prior to excavation to create an umbrella/canopy ensuring reliable support and ...

DT1132i PERFORACION DE TUBERÍAS ESPECIFICACIONES TÉCNICAS El Sandvik DT1132i es un jumbo de tuberías electro hidráulico totalmente automatizado de la serie i equipado con tres ...

Sandvik DT1132i three-boom tunneling rigs are providing time and cost efficiencies for Subterra at the Barkaby subway system project in Stockholm. "The collaboration works really well with ...

TECHNICAL SPECIFICATION Sandvik intelligent drilling jumbo fleet (DD422i, DT922i, DT912D, DT1132i and DT1232i) represents an advanced control system based electro- and diesel ...

Sandvik DT1132i ist ein vollautomatischer Tunnel-Bohrwagen mit drei elektrohydraulischen Auslegern. Ausgestattet mit dem leistungsstarken Sandvik RD535 Bohrerhammer, verkürzt der ...

Le jumbo pour la construction de tunnel, entièrement automatisé; Sandvik DT1132i est doté de trois bras électro-hydrauliques. Équipé du puissant marteau ...

Sandvik dt1132i
