

Saskatchewan drilling rig report

Are rigs drilling in Saskatchewan?

Drilling rig activity in Saskatchewan is seeing consistent activity in all regions of the province, as well as three companies drilling for helium and one for lithium. That's according to Canadian Association of Energy Contractors data, published by RiggerTalk.com. In southeast Saskatchewan, fifteen rigs were making hole.

Are there any rigs in Saskatchewan?

On Sept. 11, Rig Locator (riglocator.ca) showed nine rigs working in Saskatchewan. This drilling rig, built by Totem Drilling, became a CanElson Drilling, then Trinidad Drilling, and finally Ensign Drilling rig. It spent the downturn racked in Crescent Point's Stoughton laydown yard, and was cut up for scrap this summer.

Which rigs were drilled in Saskatchewan?

Ish Energy Ltd. employed Lasso Drilling Corp. Rig 6 northeast of Hoosier. The area north of Coleville had four rigs working. Baytex had Savanna Rig 425 and Precision Rig 155, Whitecap had Bonanza Drilling Rig 2. A standout is Grounded Lithium, drilling its first hole, making this the second targeted lithium hole drilled in Saskatchewan.

What rigs were working in west central Saskatchewan?

West Central Saskatchewan saw very few rigs working compared to usual, with just four rigs in the region. Longshore Resources had Tempco Drilling Company Inc. Rig 3 drilling within spitting distance of the Alberta border, north of Macklin. South of Macklin, Strathcona Resources had Bonanza Drilling Rig 1 working.

Where is Precision Drilling rig 188 working in Saskatchewan?

Serafina Energy had Precision Drilling Rig 188 working at Prince, north of North Battleford. Drilling rig activity has started to slowly pick up in Saskatchewan's oilpatch, but the numbers are still very low compared to any point over the last decade. On Sept. 11, Rig Locator (riglocator.ca) showed nine rigs working in Saskatchewan.
