

Self drilling oil rig

Find your self-propelled drilling rig easily amongst the 28 products from the leading brands (Hengwang, Hydra, Sandvik, ...) on DirectIndustry, the industry ...

We developed our self-erecting offshore modules platform drilling rigs to help with the heavy lifting of offshore drilling units. Our modular drilling rigs solution is ...

A jackup rig or a self-elevating unit is a type of mobile platform that consists of a buoyant hull fitted with a number of movable legs, capable of raising its hull over the surface of the sea. The buoyant hull enables transportation of the unit and all attached machinery to a desired location. Once on location the hull is raised to the required elevation above the sea surface supported by the sea bed. Th...

Transocean Sedco Forex Inc operates three large, self-propelled, semi-submersible drilling rigs. Each propulsion pod uses a Dellner Bubenzer disc ...

Explore different types of oil rigs and their functions in the oil and gas industry. Find the right job on offshore oil rigs and land-based oil rigs.

GEA has developed several methods for processing drilling mud and water on the drilling decks of drilling platforms and drilling vessels; these range from a ...

4 days ago; CP-300 is a non-self-propelled self-elevating drilling unit, used for offshore oil and natural gas exploitation and development operation, with the max. operating water depth ...

HOUSTON, May 6 (Reuters) - A top executive of Schlumberger NV (SLB), the world's largest energy services firm, on Monday predicted autonomous drilling of oil and gas wells will beat...

Jack-up rigs are commonly used to drill exploratory wells to discover new oil and gas reserves in shallow waters. Their mobility and self-elevating capability allow them to ...

Our Mobile Rigs set the standard for drilling reliability, safety, and overall quality. The NOV Mobile Rig product line is a result of intentionally listening to our customers and producing rugged ...

The Bigfoot Rig Walking System is a patented, scalable-capacity drilling rig and substructure moving system. The system employs the use of rollers paired ...

A drillship is a self-propelled, floating vessel equipped with a drilling rig and associated machinery designed for offshore oil and gas exploration and ...

Self drilling oil rig

Jack-up rigs are commonly used to drill exploratory wells to discover new oil and gas reserves in shallow waters. Their mobility and self ...
