

SKD T-19 A purpose built barge-type self-erecting tender assisted drilling (TAD) rig. The D.E.S. is also designed to have offline capabilities for cementing, stand building and logging. The tender ...

The SKD T-17 is a 320 foot self-erecting tender assisted drilling rig built in 2013 in China. It is designed for development drilling on fixed platforms in up to 6,000 ...

The CM-70 is a new hydraulic CFA rotary drilling rig developed by Soilmecc, designed for continuous flight auger and down-the-hole hammer techniques. It features self-erecting ...

A self-erecting, tender assist, drilling rig combining a high specification, lightweight drilling equipment set (DES) with an upsized, deep-draft barge. The DES is handled in four (4) lifts to ...

The Sapura T-9 is a purpose built barge-type self-erecting tender assisted drilling (TAD) rig with a flat bottom, raked stern and bow hull shape. The rig is designed as a cost ...

EDRILL-1 is a self-erecting, tender assist, drilling rig combining a high specification, lightweight drilling equipment set (DES) with an upsized, deep-draft barge. The DES is handled in three ...

Everything about the HH Series is designed for speed, safety and efficiency. You can tell just by looking it is not a conventional rig. From its self-erecting telescopic mast made from powerful ...

Sapura-Drilling-Sapura-Pelaut-2020 - Free download as PDF File (.pdf), Text File (.txt) or read online for free. This document provides specifications for the ...

This document provides specifications for the Sapura T-10 drilling rig. Some key details include: - The rig was built in 2007 in Malaysia and is flagged in ...

A purpose built barge-type self-erecting tender assisted drilling (TAD) rig with a flat bottom, raked stern and bow hull shape. The rig is designed as a cost efficient for ...

SKD T-11 A purpose built barge-type self-erecting tender assisted drilling (TAD) rig with a flat bottom, raked stern and bow hull shape. The rig is designed as a cost efficient for development ...

The HR 260 is a self erecting, 75 tons drilling rig particularly suitable for drilling great diameters using the Kelly bar system and with casing tubes directly with the rotary. The HR 260 is able to ...

Using a self-erecting tender rig for drilling from floating installations with dry wellheads in deepwater could

Self erecting drilling rig

be more cost-effective in benign ...

We provide modular solutions for the installation of offshore platforms, from single units to a complete rig package. Also, we support the installation of offshore ...

PV Drilling V is the 8th TAD in the world which is the latest generation of its kind with state-of-the-art technology and could be considered as the most modern Tender Assist Drilling Rig with the ...

Self-erecting slingshot rigs for flexible and fast rig-up in remote areas for oil and gas as well as geothermal. The rig is equipped with a slingshot substructure and a telescopic mast for fast rig ...

A purpose built semi-submersible self-erecting tender assisted drilling (TAD) rig was delivered on 23rd May 2013, which is an enhancement of the Sapura Jaya design. The unit is ...

500,000 lbs. (226,796 kg) hook load rig in a portable over the road package 80,000 lbf. (356 kN) hydraulic pulldown for precise weight on bit control ...

Wide range of drilling technologies. The CH 450 can be offered in CPD (cylinder pulldown) and WPD (winch pulldown) configuration. The innovative rotary head design adopted by ...

me: SKD T-12 A purpose built barge-type self-erecting tender assisted drilling (TAD) rig with a flat bottom, raked stern and bow hull shape. The rig is designed as a cost efficient for development ...

SKD T-18 A purpose built barge-type self-erecting tender assisted drilling (TAD) rig with a flat bottom, raked stern and bow hull shape. The rig is designed as a cost efficient for development ...

The Herrenknecht Vertical slingshot rig, a self-erecting, telescopic cylinder rig for drilling in remote areas for oil and gas as well as geothermal. The rig is equipped with a slingshot substructure ...

We designed our self-erecting offshore modules platform drilling rigs to assist with the hard lifting of offshore drilling units. Our modular drilling rigs solution ...

The HD3250 is the second generation of HD325 series drill rig, mainly for large dia. piling work, especially DTH hammer drilling 610 and 813 mm dia. The machine weights around 44 tons ...

Benefits of Tender Assist Drilling Rig A Tender Assist Drilling Rig (TAD) offers numerous benefits and efficiencies in drilling operations. The ...

The hydraulic rigs series from Drillmec are a masterpiece and a state-of-the-art rig designed for safety, speed, and efficiency. The HH series features powerful ...

Self erecting drilling rig
