

# Sleipner transport systems for drill rigs

The Sleipner System reduces travel time by 70% and doubles, or even triples, undercarriage lifetime, significantly reducing maintenance costs and downtime while increasing excavator ...

Here is our DB120, transport system for moving large bulldozers and drilling machines up to 120 tonnes as well as excavators up to 90 tonnes. With tilting bed and high clearance, Sleipner's ...

Sleipner E series dollies reduce travel time by 70% and double, or even triple, the lifespan of undercarriages. They reduce maintenance costs and downtime while increasing the availability ...

Shelf Drilling revealed on Friday, 28 April 2023, that a subsidiary of Shelf Drilling North Sea (SDNS) had secured a contract for the Shelf Drilling ...

With Sleipner's innovative transport systems, large machinery such as drill rigs and dozers can be moved up to 85% faster, reducing both operational downtime and transport costs.

Sandvik Mining and Rock Solutions, renowned for its surface drill rigs, and Sleipner, a pioneer in mobility solutions for heavy machinery, are coming ...

In terms of mobility, safety, agility and rugged reliability, you can't beat the Sleipner DB Series. More than traditional lowbed trailers, they offer you fast loading, agile transporting, reliable ...

Sleipner Finland has, this week at The Electric Mine 2024, unveiled a new generation of fully electric and autonomous transport system for moving mining and construction equipment. The ...

Sleipner system offers enhanced productivity, increased equipment utilisation, reduced operation cost, faster mobility and better overall economics during the ...

Sleipner Finland has unveiled a new generation of fully electric and autonomous transport system for moving mining and construction equipment. The world ...

Here is our DB120, transport system for moving large bulldozers and drilling machines up to 120 tonnes as well as excavators up to 90 tonnes.

The Sleipner system is a purpose-built and innovative mobility solution which can quickly load and safely move tracked or rubber-tyred ...

Purpose-built trailer designed to transport tracked dozers and drilling rigs around minesites. Safe and efficient.

## Sleipner transport systems for drill rigs

Saves on fuel and minimises undercarriage ...

Sleipner Transport Modules for Excavators and Sleipner DB120 Dozer and Drill Trailer reduce the maintenance cost of heavy loading equipment, increasing productivity in the whole of mine ...

Mining operations depend on speed and uptime - two things you can get much more of with Sleipner's DB-Series transport systems, purpose-built for moving ...

Mobility Meets Muscle Sandvik, known the world over for its high-performance surface drill rigs, is now pairing up with Sleipner's smart mobility ...

Here is our DB120, transport system for moving large bulldozers and drilling machines up to 120 tonnes as well as excavators up to 90 tonnes. With tilting bed and high clearance, Sleipner's ...

Shelf Drilling Barsk commenced drilling operations at Sleipner B in early May 2025, following its role as an accommodation and support unit since November 2024. The firm term of contract is ...

Trailer for Drills, Dozers Ups Fleet Mobility Sleipner released the DB120PLUS equipment transport trailer, which has a maximum payload of 120 mt and is ideal for drills, ...
