

Soil tek drill rig

What is a soiltek rig?

Many Soiltek rigs are in the field throughout the UK and Europe. These versatile rigs offer solutions to all requirements in the drilling and piling fields, including restricted access work. The piling rigs are compact and powerful and can be used in both rotary and CFA configurations.

Where are soiltek rigs made?

Established in 2000, Soiltek manufactures a range of drilling rigs, mini-piling rigs and baby piling rigs at a purpose built factory in central Italy. Many Soiltek rigs are in the field throughout the UK and Europe. These versatile rigs offer solutions to all requirements in the drilling and piling fields, including restricted access work.

Who makes a hydraulic piling rig?

SoilTek manufactures hydraulic piling rigs in central Italy. The S60 piling rig is a flexible machine offering solutions to most requirements in the drilling and small diameter piling fields, including restricted access work. Hammer & Steel sells and leases SoilTek S60 and S35C hydraulic piling rig equipment.

What makes a good piling rig?

A Fast and effective Rig suitable for a broad range of projects. Capabilities of up to 1000mm diameter piles and 18 metres depth. A very agile piling rig capable of working in limited access sites - despite its small size it has exceptional reach from its track base which makes it ideal for those hard-to-reach piling locations.

What are the different types of piling rigs?

The piling rigs are compact and powerful and can be used in both rotary and CFA configurations. They provide an ideal rig for constructing piles on confined sites or where there are weight or height restrictions. The mini piling rigs use sectional augers and are the most powerful in their class.

What is a mini piling rig?

They provide an ideal rig for constructing piles on confined sites or where there are weight or height restrictions. The mini piling rigs use sectional augers and are the most powerful in their class. To obtain more information contact Peter Webb on 07714 064904 or at pswebb@pswebb.co.uk. The full range of rigs can be viewed at

Soilmec S.p.A is an international company leader in design, manufacture, and distribution of equipment for the ground engineering industry, drilling and ...

The S60 pile rig is versatile and offers solutions to most requirements in the drilling and small diameter piling fields, including restricted access work.more

Soil tek drill rig

The SR-30 Eagle is the smallest model in Soilmec's line-up of drilling rigs. Built with a lightweight design the rig features a high torque rotary head, powerful ...

Soiltek Equipment From New Zealand's largest 110TN drilling rig to agile limited-access machines, our modern fleet of specialised piling equipment can handle projects of any scale ...

The CG range of piling hammers is designed for driving a variety of bearing piles including steel tube, combi piles, "H" sections and reinforced pre stressed ...

We are work in field of sales and delivery of spare parts for drilling and grouting equipment such as pumps, drilling rigs and mixer plant. All spare parts are purchased at machinery ...

Soil-Tek Solutions is a full-service erosion control and landscaping company providing products and services throughout the Southeast. Our proactive approach ensures that your investment ...

The S60 is a multipurpose compact drilling rig suitable for medium-diameter drilled shafts for drilling in any kind of soil by using a rotary system with kelly bars, augers, and buckets, using ...

Search for used drilling rigs in Texas, USA. Find NOV, Texoma, Continental emsco, Gardner Denver, Service King, and Versa-Drill for sale on Machinio.

The S60 is a multipurpose compact drilling rig suitable for medium diameter drilled shafts for drilling in any kind of soil by using a rotary system with kelly bar, augers and buckets,using the ...

SoilTek S60 Hydraulic Piling Rigs The SoilTek S60 Hydraulic Piling Rig is ideal for small job sites and restricted work areas. Contact us to buy or lease the ...

2012 Soiltek SVR 60 used Manufacturer: Soiltek Hours: 7407 Drilling rig for installation of geothermal probes or water wells 7407 hours Weight without drilling pipes 9500 kg 112 kW ...

The S60 is a versatile compact drilling rig designed by Soil Tek for drilling medium diameter shafts. This rig is adaptable to various soil conditions, employing a rotary system that utilizes ...

Piling rig with 5512 working hours Set up for CFA piling 3m kelly extension Auger cleaner Max depth 11m Max diameter 600mm Has wiring for Jean Lutz data logger (no computer)

SLD E300 SLD E300 ROTARY The Rotary has been designed in order to guarantee a very compact and powerful. SOIL TEK has developed a rotary with a two transmission group. Each ...

From New Zealand's largest 110TN drilling rig to agile limited-access machines, our modern fleet of specialised piling equipment can handle projects of any scale and complexity.

Soil tek drill rig

Explore a wide selection of used foundation drilling rigs available for sale, featuring various models and specifications to suit diverse project needs.

We proudly own a comprehensive range of machinery used in ground engineering applications. Our state-of-the-art equipment includes: Soilmec SR20 Tescar CF6 Drill rig 16 tonne Komatsu ...

Soiltek S60CFA drilling rig sale advertisement from the United Kingdom Price: EUR73,070 Year of manufacture: 2008 Running hours: 5515 h TG44483 Machineryline

Soiltek drilling rigs Price from EUR83,000 New and used Trusted sellers Currently in stock Quality construction equipment for sale at Machineryline USA

The rotary is capable of transmitting a nominal torque of 51,630 lbs/ft to 66,381 lbs/ft to the drilling tool, while the working speeds vary from 8 to 32 rpm. The unloading speed is 80 rpm.
