What is a sonic drilling rig?

A sonic drilling rig, also known as a rotary-vibratory drill, is a type of drilling equipment that is capable of high drilling speeds and performs tasks such as continuous coring. Sonic drilling rigs are more formal names for this type of equipment.

What is a sonic drill?

Sonic is an advanced form of drilling which employs the use of high-frequency, resonant energy generated inside the Sonic head to advance a core barrel or casing into subsurface formations. During drilling, the resonant energy is transferred down the drill string to the bit face at various Sonic frequencies.

What is a 4x6 Sonic drill rig?

The rig is a fully functioning sonic drill, capable of 4x6 sonic drilling and BQ, NQ and HQ diamond drilling. The drill has a 140lb SPT auto hammer, drill guarding and quick change drill head for sonic or diamond core drill drilling. Rig Capabilities: Drill Depths: General Description:

How effective is sonic drilling?

Sonic drilling is extremely efficient and the only technique that can provide a continuous soil core.

How do you drill a hole using sonic?

While there are several ways to drill using Sonic (depending upon site-specific conditions and project objectives), the most common means involves advancing a core barrel, which is overridden by a larger diameter drill string that cases the open bore hole and prevents collapse. The core barrel is advanced using sonic frequencies.

Here's the English version of the Sonic drilling demonstration video. The sonic drilling is a revolutionary sampling and coring technique that achieves high depth, and this, in nearly ...

The TSi 150CC Sonic Drill Rig is the most powerful sonic rig on a small platform in the world. It brings full Terra Sonic power and innovation to a compact ...

Crawler-Mounted Sonic Drill Rig Full-size Sonic Power and Performance The Terra Sonic 150C Series Sonic Drill Rig sets the standard in sonic drilling. No other sonic drill rig can get a sonic ...

Sonic drilling technology revolutionizes the way we approach drilling by offering rapid, energy-efficient, and precise penetration of materials. Despite high initial ...

Sonic Drilling Demo Sonic Drilling Sonic drilling is a safe, clean and low-impact drilling technique. Boreholes are drilled, cored and cased by rotating and ...

In this video, Geoprobe's Sonic Expert Doug Koehler goes through our latest offerings for the sonic drilling industry: the sonic casing stack rack, the sonic rod rack, the SRC30DT sonic rod ...

Video Summary: Drillers seeking to handle tough site conditions with a single drill rig while preserving the option for sampling and setting wells rely on the 8150LS sonic drilling rig to ...

A demo video of our Geoprobe's 8140LS Rotary Sonic Drilling Rig collecting samples and installing monitoring wells. We use this rig for various applications such as geotechnical drilling ...

We've been around for more than 35 years! Here's a sampling of the great things we've accomplished and why sonic drilling has been a regular feature in industry trade magazines for ...

Award-winning sonic drill rigs, patented and built by the Sonic Drill Corporation, have worked efficiently and profitably on thousands of drilling projects around the world.

HRP's Joel Hara takes us over the basics of how a sonic drill rig works, as we get an aerial view of the rig at work. Subscribe to HRP for more videos on Env...

Sonic Rigs. The only sonic drill rig manufacturer in the world committed exclusively to sonic drilling technology--Sonic Rigs, Sonic Heads and Terra ...

Built for You: Smarter Drill Rigs, Stronger Support, Bigger Opportunities Choosing the right drill rig starts with the right manufacturer. Seek a drill rig manufacturer who delivers ...

Geoprobe Systems leads the way in the sonic drilling world by offering a new sonic drill rig, expanding its tooling, and more.

Learn more about the Geoprobe's 8250LS Rotary Sonic in the video, articles, and resources below. The 8250LS drill rig from Geoprobe's runs 20-ft tooling.

Learn about the Geoprobe's 8140LS Rotary Sonic in the video, articles and resources below. This is a compact drill rig combined with our patented sonic head.

The TSi 150CC is not just different; it's better. This beautiful yet robust SONIC drilling rig features an elegant design and unparalleled capability. The proprietary TSi 150-Series SONIC ...

The Geoprobe's model 8140LC is a Low Clearance Roto-Sonic Drill Rig. It boasts of full rotary capabilities combined with our patented GV4 sonic head.
