

South African Engineering Survey Drilling Rig Team

Who is specialised drilling services?

8. Specialised Drilling Services was started by an Australian team in South Africa because many exploration drilling contractors struggled with good quality drilling products and especially in the more remote areas of Africa.

Who is directional drilling projects?

Directional Drilling Projects is a South African based drilling company specialising in rock and normal soil horizontal directional drilling (HDD). We opened our doors in 2008 in response to infrastructure development in South Africa and the need for a faster, less disruptive and more environmentally friendly alternative to trenching.

Who is Lesedi drilling & mining contracting company?

Lesedi Drilling and Mining Contracting Company provides diamond-drilling services to South African mining houses. We extract underground core samples that mine geologists use to determine reef location and ore quality. The mines base their development planning on these samples, which in turn, determines the mine's economic viability.

Who is Buenti drilling?

5. Buenti Drilling is a South African registered drilling service company that provides specialized drilling solutions to mineral exploration and mining companies throughout Johannesburg and the rest of South Africa.

Who is environmental drilling & remediation services (EDRS)?

We are proud to be a part of Environmental Drilling and Remediation Services (EDRS) and through our combined resources, we are helping more and more property owners access unlimited resources of natural water. EDRS was founded in 1996 and has grown throughout the decades to become a leader in the field.
