

Strata drilling rigs

Discover the Geoprobe 54UTV, an all-terrain drill rig built for environmental "Direct Push" sampling in hard-to-reach or rugged locations. Versatile, ...

Rotary drilling rigs have become one of the mainstream construction machines for bored piles due to their advanced technology, rapid and stable hole formation. However, ...

Explore the Geoprobe 6620DT, a compact yet powerful drill rig designed for precision soil sampling and augering tasks. Ideal for geotechnical and environmental projects. Learn more ...

Drill Rig Fleet & Equipment Leading the Way in Modern Drilling Technology At Strata Drilling Group, we pride ourselves on utilizing top-tier drilling ...

Our people make the difference With over 40 years of experience in the Environmental, Geotechnical and Mineral Exploration Drilling industries, Strata Drilling Group, and its group of ...

Discover the Geoprobe 420M, a compact and versatile drill rig designed for limited-access environmental and geotechnical projects. Ideal for work in ...

Micro Drilling Strata Drilling Group uses the Pionjär 120 micro drilling equipment to provide complete drilling services for hard to reach locations, inside buildings, at remote sites and ...

Additionally, Strata has considerable experience drilling at airports including O'Hare International and Midway International Airports, in both secure and nonsecure locations .

Explore the Geoprobe 54LT, a versatile and compact drill rig ideal for "Direct Push" soil sampling, augering, mud rotary, and rock coring in tight spaces. Perfect for environmental and ...

Rotary drilling rigs have become one of the mainstream construction machines for bored piles due to their advanced technology, rapid ...

Focusing on the production of quality data, Strata maintains an enviable track record of being at the forefront of technology and innovation which includes ...

Learn about Strata Drilling Group, specialists in environmental, geotechnical, and limited access drilling. Committed to precision, safety, and innovative solutions ...

Explore the Geoprobe 7822DT, a midsize, track-mounted drill rig offering superior versatility and

Strata drilling rigs

maneuverability in tight spaces. Ideal for geotechnical and ...

As a specialty contractor to the environmental and geotechnical industries, Strata Drilling Group offers a diverse portfolio of cost-effective solutions to help our clients optimize the ...

Spikes Rig Sales has a GEFCO Strata Star 5 Auger Drilling Rig Listed for Sale, SRS #3854. Call Spikes Rigs Toll Free at 888-204-3907 or 814-676-1963 for Price or email spike@spikesrigs

Stratacore Drilling is a privately owned, Australian managed drilling and CPT service provider who sets the benchmark in innovative and quality drilling services across Australia.

Equipped with a G64 hydraulic hammer with built in rotary spindle for concrete drilling and anchoring, this rig has over a 24 ton pulling capacity for larger tooling and deeper depths, as ...

Drilling methods of rotary piles in different strata Drilling in clay layer Drilling in different strata by rotary drilling rigs requires different considerations. The ...

Rotary drilling rigs are the most common equipment in current pile construction. Since the geology of each place is different, how to choose the appropriate drill bit during the ...

Strata Drilling Group owns and operates a full fleet of track mounted drilling rigs, as well as an array of limited access equipment. Our state-of-the-art drilling equipment and techniques for ...

Explore the comprehensive drilling services offered by Strata Drilling Group, specializing in environmental, geotechnical, and limited access drilling. Discover how our expert team can ...
